

## BROKE DOWN AS SHE TOLD HER STORY

**Mrs. William K. Thaw,  
Mother of Defendant  
on Witness Stand**

**And Related What Harry Had  
Told Her of His Wife  
And White**

**JEROME WAS DUMBFOUNDED**

**When Dr. Wagner in Conclusion Said  
Thaw Did Not Know Right  
From Wrong.**

New York, March 6.—Mrs. Wm. Thaw, Harry's mother, took the stand after recess this afternoon. She broke down in relating what Harry told her of White and Evelyn in 1903.

New York, March 6.—The parting of the ways for District Attorney Jerome's double barreled attack on Harry Thaw has about been reached. Hitherto Jerome has proceeded along both lines of his attack, one aim being apparently to prove Thaw sane when he killed Stanford White, opening the way to send him to the electric chair; the other line of attack intended to prove the defendant is still insane and a fit subject of treatment at Matteawan.

Jerome's cross examination of the defense's experts has developed so little that it is apparent that he must very shortly drop one or the other of the theories he has been working on and develop fully the one on which he will make his final plea to the jury. Jerome has not broken down the case of Thaw's insanity experts in any important particular. This has placed him in an embarrassing position. Just as the defense some time ago was forced to withhold part of its testimony until it had laid the basis for showing Thaw insane at the time of the shooting so Jerome will probably be halted in his effort to prove Thaw sane now unless he lays a better basis for the admission of such evidence.

Jerome was flatly balked in trying to make the defense's expert furnish to make the defense's expert furnish at present. He questioned Dr. Wagner as to Thaw's condition at this time but the doctor declared he could not tell anything about it.

**DR. WAGNER RECALLED.**  
Jerome gave scant hope to the spectators who were longing for the expert testimony to be discontinued by sending in his crowd of assistants with the same cartload of books on

## BRIDE ACTED "LADY GODIVA" TO SAVE HER HUSBAND'S LIFE

Highmore, S. D., March 6.—Like Lady Godiva, who rode uncovered through her native town to save its inhabitants from the conqueror's sword, a South Dakota woman rode to save her husband's life.

Almost stark naked, only the remnants of a night robe shielding her form from the biting cold of zero weather, Mrs. Andrew H. Lien, a bride of eight months, rode on horseback three miles over the snow to summon aid to her dying husband, whose scorched body she carried from a burning farm house.

Lien was building a fire in a stove upon his return from town. His wife was in bed. He used kerosene and an explosion followed, the flames enveloping his body. With his clothing blazing the man made ineffectual efforts to extinguish the flames, calling meanwhile for help. Mrs. Lien, awakened by the explosion and the voice of her husband, leaped from the

bed and wrapped the body of her husband in a quilt. Her hands and arms were terribly burned and her night robe was nearly consumed.

The house was in flames and the young wife carried her suffering husband through the blaze out of doors and to the barn, walking the entire distance in bare feet through snow drifts. There she wrapped his blistered body in the quilt and rolled him in the hay. Unable now to enter the house for clothing or to reach the telephone, Mrs. Lien bridled a horse and leaping astride it rode three miles to the nearest neighbor's for assistance. From there a physician was summoned.

Mrs. Lien fainted, but upon recovering insisted upon returning to her husband, who died at daybreak after an affecting farewell to his bride wife.

Mrs. Lien collapsed, owing to severe burns and exposure and it is feared she will die.

Chief Counsel Hartridge of the defense announced that Mrs. William Thaw, mother of the defendant, would, in all probability take the stand immediately after the noon recess.

Battling Nelson, the pugilist, sat with a wrinkled brow during the long morning session. He had just returned from England where the Thaw trial was the main topic of conversation, and made haste to get into the court room.

Delmas said to Doctor Wagner, "Is there anything you would like to add to your direct testimony, in view of the long cross examination to which you have been subjected?"

"Nothing, except that I would emphasize the fact that this defendant, when he shot White, did not know it was wrong," said Wagner, getting in a final blow for his cause.

"What do you mean by wrong?" demanded Jerome.

"I mean just this," Wagner replied impressively, while the jurors regarded him intently. "I mean that the defendant had not sufficient intelligence at the time of the shooting to know that his act was contrary to the law of the land, and that he had rendered himself liable to punishment."

Jerome looked dazed as he realized the impression this final declaration seemed to have made on the jury, and Thaw's lawyers smiled.

**REFUSE DEMAND  
STRIKE MAY ENSUE**

**Louisville Street Railway Company  
Stands Firm Against Granting  
Any Concessions.**

Louisville, Ky., March 6.—At a conference between a committee representing the Louisville branch of the International Union of Street Railway Employees and the officers of the Louisville Street Railway company, the demands of the men were unconditionally refused. The most important demand is for recognition of the union. Another demand is for an explanation of the discharge of four union employees. A third demand is for an abatement of the sliding scale of wages and the substitution of a straight 10-hour day. At a meeting of the union employees Wednesday night a vote will be taken on the question of striking to enforce the demands.

## REMOVED THE SCAR THAT MARRED BEAUTY

**Granddaughter of Alexander McDon-  
ald Can Now Wear Low-Necked  
Dresses**

Cincinnati, March 6.—Miss Laura Stallo, 18 years old, daughter of E.

K. Stallo and granddaughter of Alexander McDonald, the Standard Oil multi-millionaire, will no longer seek to hide a scar on the neck and bosom caused by a burn a few years ago. She has heretofore been unable to appear in society in low-necked dresses on account of this only blemish to her remarkable beauty of face and figure.

There have been numerous attempts by surgeons to remove this scar, but fruitlessly until the present. Recently Dr. C. A. L. Reed, of this city, expert of the National Medical Association, undertook to remove the disfiguring mark. The operation was performed at Dairay, the magnificent home of Mr. McDonald here, and is now reported as entirely successful.

Miss Stallo will be compelled to remain in bed for a few days, but the scar will be absolutely and everlastingly eliminated.

## "IT WAS THE DUTY OF THESE BOYS TO KILL BYWATERS"

**Said Strothers' Attorney in Arguing  
the Case to the Jury at Cul-  
peper, Va.**

Culpeper, Va., March 6.—Unless the illness of Philip Strother should further delay proceedings, the case against him and his brother for slaying their sister's betrayer will probably go to the jury tonight. Philip had recovered sufficiently yesterday for him to be brought into court in the late afternoon to hear the opening speeches for prosecution and defense. He is suffering with grip and is apparently exerting all his will power to prevent an interruption of the case, and possible mistrial.

The gist of the arguments delivered to the jury thus far is contained in the following:

"It was the duty of these boys, not only to themselves, but to you and me to kill Bywaters"—John L. Jeffries, attorney for the defense to the jury.

"If you find that these defendants killed Bywaters coolly and deliberately, then your verdict must be murder in the first degree"—Commonwealth Attorney J. A. Keith.

Attorneys Lee and Moore are scheduled to continue for the defense today and Captain Wood to close for the commonwealth.

**BUNGOED UNCLE SAM.**  
Washington, March 6.—Charges have been filed at the treasury department that the Standard Oil company has bungoed Uncle Sam out of \$20,000 by evading the duty on oil sent to the Philippines.

**WALL STREET  
NEAR A PANIC**

**Millions Were Dropped and Many  
Bankers Are Face to Face  
With Ruin.**

New York, March 6.—Wall street staggered on the verge of panic Tuesday as millions of quoted values were swept away in a deluge of frightened liquidations that carried nearly 2,000,000 shares across the floor of the New York stock exchange.

Hundreds of bankers are facing loss of the bulk of their fortunes through pool operations. Hundreds of wealthy men in all parts of the country have tasted ruin and must start life anew. They are concealing their injuries, but the loss on stocks quoted in Wall street amounts to more than \$2,000,000,000 in the last eight months.

It is a rich man's panic. The mass of the public is untouched, for it has kept away from the market.

One fact stands out clearly—that J. P. Morgan and his followers are not worried. It is believed they have unloaded every share with which they care to part, and that the Rockefeller clique has furnished the purchasers.

**MRS. VALENTINE IS RELEASED.**

Springfield, March 6.—Mrs. Henry Valentine, who shot and killed her husband two weeks ago, was released from jail last night, the grand jury having failed to indict her, self defense being shown. Thomas Carty, a saloon keeper was indicted for subornation of perjury, it being declared by several men that he induced them to swear falsely.

**BIG MILL TO RESUME.**

Bridgeport, March 6.—The Laughlin Sheet Mill at Martins Ferry, employing eight hundred men, that has been idle three years on account of a strike, was ordered to be started next week.

Five hundred miners in the Empire mines resumed work today after a week's strike.

The four-year-old son of Dr. H. W. Marvin, recently of Sioux City, Ia., disappeared from home and has not been found. Kidnaping is suspected.

## PROCESS SERVERS MAY HAVE TROUBLE AT PLEASANT VIEW BUT SENATOR CHANDLER SAYS PAPERS WILL BE SERVED

Boston, March 6.—An intimidation cropped up today in connection with the suit for an accounting of the property of Mrs. Mary Baker Eddy. It is said that closely identified with Mrs. Eddy's relatives are those who are interested in a financial settlement, are a number of the most prominent members of the Christian Science church. The latter are said to be actuated by the belief that so much scandal has been rumored regarding affairs at Mrs. Eddy's home

at Pleasantview, that the welfare of the church demands an investigation. It is said that all chance of a blocking of the suit has now been passed and that Senator Chandler and his army of legal assistants, who are waging the attack on the trustees handling Mrs. Eddy's property, will insist on going to the bottom of things, and that no secret of a financial nature regarding Mrs. Eddy's income, her estate and her copyrights will escape an airing. Exciting events are looked for at Pleasantview today when court officials will seek to

serve papers on Mrs. Eddy, General Streeter, her attorney, Secretary Frye and other members of the so-called cabinet.

It is said that those closely associated with Mrs. Eddy will not only use force, if necessary, to prevent the process servers from getting into Pleasantview, but that they will personally resist service.

Senator Chandler on the other hand, has declared that the papers will be served even if it is necessary to batter down the doors of the Christian Science mecca, Pleasantview.

## "SPOOK-IN-CHIEF" SUES SPIRITUALIST FOR DEFAMATION OF CHARACTER

New York, March 6.—If one-half the charges she makes are true one of the most sensational exposures in the history of the country can be expected as the result of a suit just filed by Mrs. Harriet E. Strickland against "Dr." Hugh R. Moore, a spiritualistic minister and conjurer of spooks.

Mrs. Strickland asks for \$25,000. Moore defamed her character, which she says followed her quitting Moore's service, where she was employed as spook-in-chief.

Mrs. Strickland alleges that some

of the patrons of the parlor discovered that she was a very tangible sort of a spirit and that she was forced to quit the game. She also says that when some of his patrons grew suspicious Moore defamed her character.

These features are secondary in interest to the facts that Mrs. Strickland says she will disclose relative to the fakes practiced by the "Rev. Dr." Moore at the "first church of progressive spirits," over which he presided. She says Moore had a complete staff of various ages and temperaments who were spook actors.

gine with a caboose ran into a derail and was hurled over a 30-foot embankment. Hutton was crushed under the locomotive.

The coroner returned his verdict in accordance with Rice's testimony.

## ENGINEER ASLEEP AT THE THROTTLE

**He Testified That He Had Worked  
Such Long Hours He Could Not  
Keep Awake.**

Coshocton, O., March 6.—At Coroner Lear's inquest Tuesday over the C. & C. wreck, which took place at Warsaw Junction, this county, early last Saturday morning, in which Fireman Otto Hutton of Delaware was crushed to death, and Conductor J. C. Norman of Zanesville were badly hurt, it developed that the accident was due to the fact that Engineer Rice of Danville, O., was asleep when his train reached the T. V. V. and O. crossing.

Engineer E. J. Rice testified that he was responsible for the wreck. He said he was asleep at the throttle when the accident occurred.

Rice declared he had been forced to work such long hours that he was unable longer to keep awake. The en-

gine with a caboose ran into a derail and was hurled over a 30-foot embankment. Hutton was crushed under the locomotive.

The coroner returned his verdict in accordance with Rice's testimony.

**WHITE TOOK STAND  
IN HIS OWN BEHALF**

Wooster, March 6.—Harry White, who is on trial here for the murder of Thomas Dye, was placed on the stand this morning in his own behalf. White told of the shooting the same way as in his confession made to the officers, saying that the shot which killed Dye was fired by Allen Miller, and that Miller and Wm. Everhart carried the body from the railway track and placed it where it was found.

White claimed he refused to lift the body from the track for the reason that he felt he had done nothing to cause Dye's death.

Herbert Knox Smith of Connecticut, deputy commissioner of the bureau of corporations, was sworn in as commissioner of that office, succeeding James R. Garfield.

serve papers on Mrs. Eddy, General Streeter, her attorney, Secretary Frye and other members of the so-called cabinet.

It is said that those closely associated with Mrs. Eddy will not only use force, if necessary, to prevent the process servers from getting into Pleasantview, but that they will personally resist service.

Senator Chandler on the other hand, has declared that the papers will be served even if it is necessary to batter down the doors of the Christian Science mecca, Pleasantview.

## CHILD RECOVERS DOCTOR AMAZED

**OVER 300 PIECES OF SKIN WERE  
GRAFTED ON LITTLE GIRL'S  
BODY**

Four Persons, Including the Hospital Surgeon Contributed Pieces of Cuticle.

Pittsburg, Pa., March 6.—Surgeons at the Presbyterian Hospital announced Tuesday evening that John McKenzie, the 6 year old daughter of George McKenzie, who was burned over more than one-third of her body when her clothing caught fire at an open grate several weeks ago, would recover. When one-third of a person's body is burned the surgeons always say that the victim cannot recover, so little Miss McKenzie's case is a most remarkable one.

The surgeons say that skin grafting is responsible for her recovery. Four persons contributed 300 pieces of cuticle from their own bodies, which were grafted to the burned surface of the child's body. The persons who contributed this cuticle were Miss Annie B. Martin, the little girl's school teacher, her father, Lisbrother, Robert McKenzie, and one of the surgeons at the hospital who took a great fancy to the little girl when she was first brought to the hospital, and who had charge of her care. Highly pieces of cuticle were taken from the bodies of each of the four contributors.

The child stood the operations well and a strong constitution helped her recover. Physicians say that in three weeks she will be fully recovered. They consider it one of the most remarkable cases on record.

**WHITE TOOK STAND  
IN HIS OWN BEHALF**

Wooster, March 6.—Harry White, who is on trial here for the murder of Thomas Dye, was placed on the stand this morning in his own behalf. White told of the shooting the same way as in his confession made to the officers, saying that the shot which killed Dye was fired by Allen Miller, and that Miller and Wm. Everhart carried the body from the railway track and placed it where it was found.

White claimed he refused to lift the body from the track for the reason that he felt he had done nothing to cause Dye's death.

Herbert Knox Smith of Connecticut, deputy commissioner of the bureau of corporations, was sworn in as commissioner of that office, succeeding James R. Garfield.

## SHERIFF REDMAN TOOK PRISONER TO PENITENTIARY

**LEFT AT NOON TODAY WITH J. F.  
LINGAFELTER FOR THAT  
INSTITUTION.**

**WIFE WAS AT STATION**

**And Accompanied Her Husband to  
Columbus—No Emotion Shown  
by Either.**

(Special to the Advocate.)

Columbus, O., March 6.—"Goodbye, Mary," and with these words James F. Lingafelter lifted his hat to his sobbing wife as she stood at the bars of the bull pen at the Ohio Penitentiary this afternoon and then in charge of the prison's officers, the ex-Newark banker stepped through the doorway and behind the prison walls where he will spend the next four years in payment for his crime.

Mr. Lingafelter was accompanied by his wife and Sheriff Redman of Licking county. They arrived at the penitentiary at 2 o'clock. The former banker was taken to the guard room, Mrs. Lingafelter walking closely behind. The gates of the "bull pen" swept open and the prisoner stepped down, Mrs. Lingafelter crying:

"Just give him time to kiss me."

She was nearly distracted with grief, but it was too late. The iron doors were closed.

Mrs. Lingafelter waited in the guard room while he was searched, and after he was relieved of his wraps, he handed his wife his gold watch, saying:

"Keep this for me."

A deputy then took him in charge. Mr. Lingafelter will be given work as a bookkeeper.

The hard fight of James F. Lingafelter has ended and this afternoon the ex-banker commenced his four-year term in the Ohio penitentiary.

There was little or no excitement out of the ordinary at the Pan Handle station when the aged gentleman with his wife, stepped on the Pennsylvania train which left the station at 12:45 p. m. Sheriff Redman was a few paces behind and there was nothing to indicate that the aged man was traveling in custody of an officer en route to the penitentiary.

Five minutes before the train arrived, a carriage pulled up at the curb stone on the north side of the station, and Sheriff Redman stepped out. Mr. and Mrs. Lingafelter were the other occupants of the carriage, but they did not leave until after the train arrived. Sheriff Redman did nothing in his official capacity that would humiliate the prisoner. He followed a few paces behind the man as he stepped from the carriage to the train.

Once on the train he seated himself immediately behind Mr. and Mrs. Lingafelter and the journey to Columbus was finished in that way.

There were not a half dozen people more than usual at the station, and there was no unusual excitement. No emotion was displayed by either the prisoner or his wife.

**HEROIC CREW  
FIGHT FLAMES  
ABOARD SHIP**

New York, March 6.—A thrilling story of battle with raging flames on a freezing sea was related by the exhausted crew of the German steamer Vandalla, which limped into port today from Chinese and Japanese ports.

On February 25, while beating along in the teeth of a northwest gale, fire was discovered in the cargo of the forward hold. Captain Frank piped all hands to quarters, the hatches were opened so that the sea could wash into the hold and a number of lines of hose were stretched to the fire. In a couple of hours the hold was flooded but the process had depressed the bow so that the stern of the vessel was out of the water and her screws fanned the air. It was necessary to stop the engines, and for three days the ship was tossed about at the mercy of the gale.

### RAILWAY AFFAIRS

**B. & O. Raises Freight Rates.**  
Baltimore, Md., March 6--The B  
& O. railroad will, beginning May 1,  
next, increase freight rates on coal  
hailed to eastern tidewater points ex-  
cept in New England, 5 cents per ton.  
The B. & O. has also announced that  
on April 15 it will readjust rates on  
coal to Cincinnati with the view to  
making them more uniform.

**New Pan Handle Line Ready.**  
Seven miles of new main line for  
the Pan Handle between Piqua and  
Bradford Junction, O., will be placed  
in operation in a short time. This  
practically completes the second  
track for the Indianapolis division  
from Columbus west 84 miles to  
miles to Bradford Junction.

**Great Northern Officials.**  
St. Paul, March 6--For several  
days rumors have been in circulation  
in railroad circles here that George  
T. Slade, general superintendent of  
the Great Northern railroad, had ten-  
ded his resignation to become gen-  
eral manager of the Wheeling & Lake  
Erie railroad.

**Railroad Notes.**  
The loading of ice stopped at San-  
dusky Monday afternoon. Many hun-  
dred car loads have been shipped  
from that point over the B. & O. to  
supply that company's trade, while  
other roads into Sandusky have been  
keeping busy shipping to their vari-  
ous points.

The carpenters are at work on the  
new office for the division engineer of  
the B. & O. in the office building at  
the station. The new office will be in  
the north end of the building.  
The adoption by the New York  
Central of electricity for the motive  
power for its enormous passenger  
traffic into and out of its terminals at  
Grand Central station, New York.

### Sore Throat

You owe it to your family to have a bot-  
tle of TONSILINE ready for instant use  
at the first appearance of Sore Throat.  
TONSILINE will positively cure it and by  
using it you avoid the danger of Tonsi-  
litis, Quinsy, Croup, Diphtheria and other  
deadly diseases.

No wonder TONSILINE is so popular a  
Sore Throat Cure. It is made to cure  
Sore Throat. When you have Sore  
Throat the gateway to the body is  
open. Then you need a remedy you  
can be sure of--one made especially  
for curing Sore Throat. Don't de-  
lay--TONSILINE is the only safe  
cure. 25 and 50 cents, all drugists.  
The Tonsiline Co. Cincinnati, Ohio

marks an era in passenger transpor-  
tation in America.

A few days ago there were no  
trains being operated in and out of  
the Grand Central station either by  
electric locomotives or multiple unit  
controlled electric cars.

A stated meeting of the Railway  
Signal Association will be held at the  
Great Northern hotel, Chicago, on  
March 18. Subjects for considera-  
tion are as follows. General speci-  
fications for electric interlocking; in-  
stallation and maintenance of storage  
batteries; discussion on signal lamps.  
discussion of special committee re-  
port on interlocking and block sig-  
nals.

Pittsburg has increased the assess-  
ment of Pennsylvania railroad prop-  
erty \$13,000,000, the Union Depot  
being raised \$1,000,000, the stock  
yards \$800,000, and the right of way  
\$7,000,000.

B and O General Superintendent  
Loree was in the city Wednesday noon  
for a short time en route for Wheel-  
ing from Sandusky.

"Suffered day and night the torment  
of itching piles. Nothing helped me un-  
til I used Doan's Ointment. It cured me  
permanently."--Hon. John R. Garrett,  
Mayor, Girard, Ala.

### SERVED NOTICE ON BOARD OF HEALTH

About forty property owners in  
"Texas" served notice on the Board  
of Health to remove the dead dogs  
that were lately shot by the dog catch-  
er and left lying near their homes.  
They also requested that the dumpings  
of outhouses be made in a place other  
than near their homes, claiming that  
the stench is a breeder of disease. The  
petitioners complain to the board that  
all these things have been done by  
the city to their injury by reason of  
neglect of the city to have them prop-  
erly taken care of.

"Satan's Imp" Thursday night Au-  
ditorium.

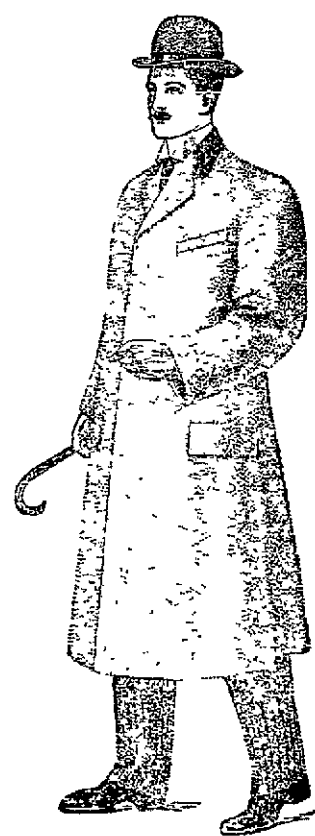

### Rushing Canal Work.

Washington, March 6.--Chief Engi-  
neer Stevens is trying to make a rec-  
ord before he turns the Panama canal  
work over to his successor, Colonel  
Goethals, as is evidenced by the fol-  
lowing cablegram received from him:  
"In 27 working days of February, ex-  
cavation in Culebra cut was 638,644  
yards. On same basis full month  
would have 722,000 yards. March  
should go considerably over 800,000."

Judge Richard A. Ballinger of  
Washington succeeded William A.  
Richards of Wyoming as commission-  
er of the general land office.

### J. V. HILLIARD,

Attorney-at-Law, practices in all the  
state and U. S. and Circuit Courts.  
Prompt attention given to settlements of  
estates. Notary Public in office. 26 1-2  
West Main street, in Wehrle Block.

Wouldn't You  
Like a Nobby  
Spring Top Coat?

We can supply it--a  
dandy too--for a more  
favorable price--qual-  
ity for quality--style  
for style--than you can  
obtain anywhere else.

## NEWARK TELEPHONE HAS ALMOST REACHED

The growth of the Newark  
phone company still seems to con-  
tinued unabated, and over one hundred  
subscribers have been installed  
this company's lines since the di-  
rectory was published the last of Jan-  
uary, and the total number of sub-  
scribers to which it is now giving  
service is very close to three thou-  
sand. It was only four years ago, Jan-  
uary 1st, that the total number of sub-  
scribers to which this company was giv-  
ing service was only six hundred, and  
it is nearly five times that number  
truly one of the most remarkable  
growths on record in the telepho-  
ne field.

This company has recently instal-  
led a new switch-board of the most  
proved local battery type, at its Gar-  
field exchange, and now has order  
that point for over fifty telepho-  
ne which they will install as rapidly  
possible.

Below we give a list of the new  
subscribers mentioned above, and the  
phone users required to in-  
stall this in the block, in the di-  
rectory of the book, and are also asked  
change in their directory any num-  
ber which they will find in the list  
changes given below which they  
constantly.

# BOARD OF TRADE FACTORY FUND STILL GROWING

The Board of Trade's factory fund is still growing slowly. Few committeemen were able to work Tuesday and Wednesday, but the following list shows a number of additions since the last publication.

Remember every dollar subscribed to this fund will be used to make Newark a bigger and a better city. This money will bring more people and more business to town. It will enhance the value of all Newark real estate. Will you help?

## MANUFACTURERS.

W. W. and A. T. Wehrle.....	\$ 500
A. H. Heisey .....	200
Geo. D. Heisey .....	100
E. W. Heisey .....	100
C. T. Heisey .....	100
Consumers Brewing Co. ....	200
Bailey & Keeley .....	100
Harry Swisher .....	100

# Don't You Like This Town?

You live here. Your business interests are here. Your home is here.

You are reading a Mail Order Catalogue. That indicates that you are not spending your money in this town. You are spending it with strangers in a big city. That city has no use for this town except to get your money.

This town has use for your money. If spent here, your money will help to build up the town. It will help to build up your own business.

In the long run more of your money will come back to you if you spend it at home than if you send it to Chicago or some other large city. You spend a dollar with Smith, up the street. Smith spends it with Brown, around the corner. Brown is just as likely to spend it with you as with anybody else. Did you ever think of that?

'All of us have to spend money.' There is an art in spending it where it will do the most good. If spent so that it will circulate around this town and community, it will help this town and community. You belong to this town and community. Therefore it will help you. Isn't that good logic?

Suppose you think it over next time you pick up the Mail Order Catalogue.

## DAY'S BUSINESS IN COURT HOUSE

### Motion in Arrest of Judgment.

In the case of the State of Ohio vs. Max McCann, the defendant, by his attorney, Roderic Jones, has filed a motion in the Common Pleas court, wherein he asks the court to arrest the judgment finding him guilty of intent to commit a criminal assault, because the facts stated in the indictment do not constitute an offense known to the laws of the state of Ohio.

### Motion for New Trial.

In the case of the State of Ohio vs. Max McCann, found guilty of assault with criminal intent, the defendant has filed a motion for a new trial. Roderic Jones, attorney.

### Answer and Cross Petition.

In the case of Minnie Lauffer vs. Joseph E. Baughman and others, the defendant, Joseph E. Baughman, has filed an additional answer and cross petition. He prays that in case the court should decree under the facts in this case that his interest in the estate is less than a fee simple interest that the court order and decree that he be subrogated to all the rights of such creditors of Catherine Baughman whose claims have been paid by him under the circumstances; that the court order and decree that he have an equitable lien upon the real estate in the proceeds of the sale for the sum of \$442.59, with interest from May 14, 1904, and that the same be paid to him or to his order, or to his mortgagee, before any distribution, other than the costs of the suit is made of the proceeds of the sale of the real estate. Kibler & Montgomery, attorneys for defendant.

### Important Road Case.

An important road case came up for hearing before the county commissioners Wednesday. It was the road petitioned for by J. F. Keller and others, north of the city, being an extension of Sixteenth street north. The case was argued Wednesday afternoon.

### Money in County Treasury.

According to law the county commissioners counted the money in the county treasury, which corresponded with the statement of the county auditor. They found in the treasury \$100,768.89.

### Dog Tax Fund.

The total per capita dog tax for the year 1907 amounted to \$494.69. From this amount steep claims

amounting to \$3082.21, have been paid for the year ending March 1, 1907, leaving a balance in the fund of \$1412.48. From this amount, however, must be deducted a claim of \$136 for a case treated at the Pastur Institute, Chicago, under the law providing for the treatment of indigent persons bitten by dogs.

### Wills Probated.

The will of John Wulfoop, deceased, has been admitted to probate. The will of Henry Smoke deceased, of Etina township, has been admitted to probate.

### Contracts Awarded

The county commissioners awarded contracts as follows Tuesday: Concrete substructure for the Columbus road bridge, Johnstown, to Cary Rice, at \$6.95 per cubic yard. Substructure for Clay Lick bridge to Cary Rice, \$6.80 per cubic yard. Putting in filling at Dry Creek bridge, to George A. Penney, at 15 cents per lineal foot.

### In Justices' Courts.

The case of the state of Ohio vs. Barney Sousland, charged with taking a switch lock belonging to the Pan Handle railroad company, has been set for hearing in Justice Nash's court on Thursday, March 14.

In the case of Frank Markis vs. Christ Baruxes and Peter Katsampos, suit for money for work and labor, judgment was rendered in favor of plaintiff for \$30 and the costs of the suit, by Justice Nash.

### Real Estate Transfers.

Isaac H. Linton and wife to John C. James and Emma V. James, real estate in Newark, \$1050.

Moses H. Neil to Bertha A. Hall, lot 53 in Moses H. Neil's Glenwood addition to Newark, \$200.

Irene B. Gates and husband to Peter Copeland, inlot 6 in Johnstown, \$1,000.

Louis L. Keller to Iris Keller, lots 25 and 27 in Kirkersville, \$1 and love and affection.

Bargain matinees at Auditorium all week.

W. B. Tegetmeier is said to be the oldest journalist in London. He was born in 1816, and has been on the staff of the field for forty-five years, and has written 1,100 weekly leaders for the Queen, without a single omission.

## CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of J. C. Ayer

## GENERAL J. M. DEARDORFF.

County Commissioner J. S. Graham who was called to Springfield by the death of his father-in-law, General J. M. Deardorff, on Monday, has returned home. General Deardorff died Sunday morning and the funeral services were held Tuesday afternoon at 2 o'clock. He is survived by his widow and five children. At the outbreak of the Civil war he was commissioned recruiting officer for Clark county to fill the quota in the Second and Third regiments, and in 1863 he was commissioned recruiting officer to organize the Seventy-first O. V. I. During the Morgan raid he raised a company of the best men of Springfield and took them to Columbus, where he reported for duty.

## SARAH F. HOLMES.

Sarah Elizabeth Shull was born near Baltimore, Md., October 16, 1825; died February 24, 1907, aged 81 years, 4 months and 8 days. She was married to William Thomas Holmes in Muskingum county, Ohio, March 18, 1841. For 14 years they resided in Muskingum county and the remaining 52 years of their married life were spent in Brownsville. Her husband departed this life 12 years ago. To this union eight children were born, five girls and three boys, Almada Peyton, who resides in Terre Haute, Ind.; Sarah E. Brown and Lucy A. DeCrow, who live in Newark, Ohio; Maggie Green and Dr. W. S. Holmes of Columbus, Ohio; Dr. N. E. Holmes and Lemuel W. Holmes, of Brownsville, Ohio, and Mary T. Holmes, who died April 2, 1878. Also 12 grandchildren and three great grandchildren. All of her children now living were present during her last sickness and death.

She was formerly a member of the Methodist protestant church, but of later years has been associated with the Methodist Episcopal church.

It

## WHERE HOME IS

By Byron Williams.

I am weary of lock-outs and coal smoke,  
Of railways and cobbles and noise;  
I long to go back to the country  
Where once I was "one of the boys,"  
To eat mush-and-milk with the natives  
And swap stories down at the store;  
To sleep on the fat feather bed-tick  
That's built away up from the floor!

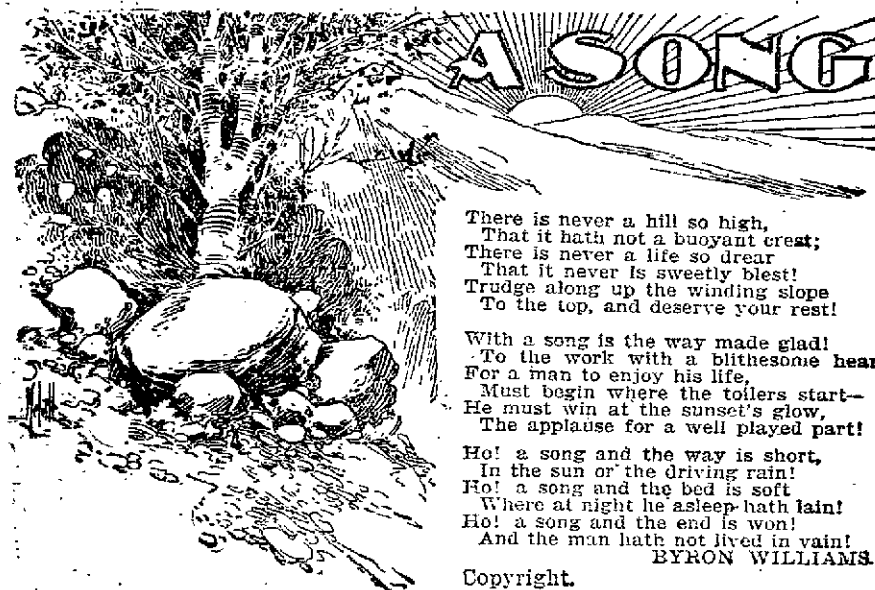

I am weary of dodging and crowding,  
Of dandies and lackeys and such;  
I long to go back to the country  
Where "show" is not overly much,  
To eat mother's doughnuts and flapjack  
And holler across our back lawn  
At neighbors I knew when a youngster—  
Those neighbors of thrift and of brawn.

I am weary of toiling and hoping,  
Of toiling and hoping again;  
I long to go back to the country  
And slip to bed promptly at 10;  
To sit in the old-fashioned parlor  
And rest with all trouble discharged,  
Just rest in the old patch-work cushions,  
And gaze at the pictures enlarged.

There's father and mother and William,  
And poor little Ben who is dead—  
And I—a fat little shaver,  
With hair plastered close to my head;  
And sister and Susan and uncle—  
All hung in their black oval frames,  
Suspended from nails in the plaster—  
And under the pictures the names!

Yes, I'm weary of hoping and striving,  
Of slaving all day in the din;  
I long to go back to the country  
And think it all over again;  
To get a new grip on the throttle,  
Get steam for the mountainous land,  
To gain inspiration and courage  
That comes from the firm, horny hand.

So at nightfall it's off to the sleeper,  
That waits in the heart of the noise,  
To speed to the land of my birthplace,  
Where once I was "one of the boys."

There is never a hill so high,  
That it hath not a buoyant crest;  
There is never a life so drear  
That it never is sweetly blest!  
Trodge along up the winding slope  
To the top, and deserve your rest!

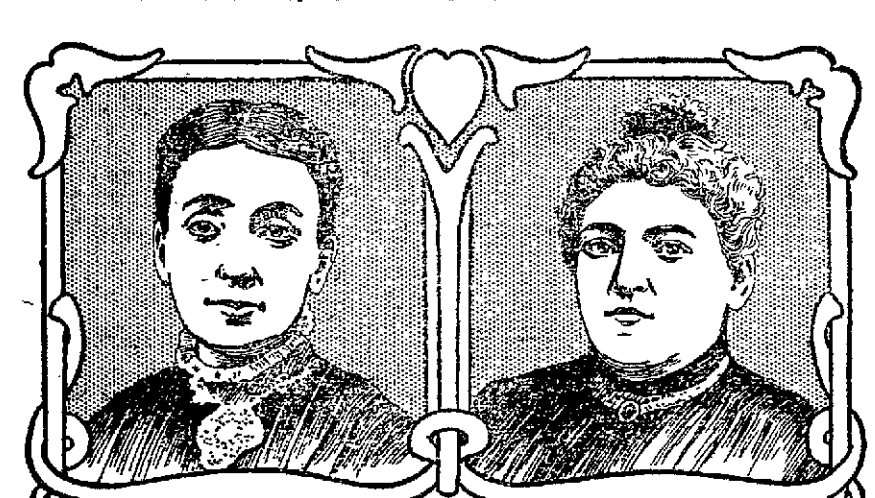

With a song is the way made glad!  
To the work with a blithesome heart!  
For a man to enjoy his life,  
Must begin where the toilers start—  
He must win at the sunset's glow,  
The applause for a well played part!

Ho! a song and the way is short,  
Ho! a song and the bed is soft,  
Where at night he asleep hath lain!  
Ho! a song and the end is won!  
And the man hath not lived in vain!  
BYRON WILLIAMS.

## THE CHANGE OF LIFE

Sensible Advice to Women from Mrs. Henry Lee, Mrs. Fred Certia and Mrs. Pinkham.

MRS. HENRY LEE

MRS. FRED CERTIA

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

This is the most critical period of her whole existence and every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition or she is predisposed to apoplexy or congestion of any organ, the tendency is at this period likely to become active and with a host of nervous irritations make life a burden. At this time also cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, melancholia, dread of impending evil, palpitation of the heart, irregularities, constipation and dizziness are promptly heeded by intelligent women who are approaching the period of life when this great change may be expected.

Mrs. Fred Certia, 1014 So. Lafayette Street, So. Bend, Ind., writes: Dear Mrs. Pinkham—

"Lydia E. Pinkham's Vegetable Compound is the ideal medicine for women who

are passing through Change of Life. For several months I suffered from hot flashes, extreme nervousness, headache and sleeplessness. I had no appetite and could not sleep. I had made up my mind there was no help for me until I began to use Lydia E. Pinkham's Vegetable Compound, my bad symptoms ceased, and it brought me safely through the danger period, built up my system and I am in excellent health. I consider Lydia E. Pinkham's Vegetable Compound unsurpassed for women during this trying period of life."

Mrs. Henry Lee, 60 Winter Street, New Haven, Conn., writes:

Dear Mrs. Pinkham—"After suffering untold misery for three years during Change of Life I heard of Lydia E. Pinkham's Vegetable Compound. I wrote you of my condition, and began to take Lydia E. Pinkham's Vegetable Compound and followed your advice, and to-day I am well and happy. I can now walk anywhere and work as well as anyone, and for years previous I had tried but could not get around without help. I consider your medicine a sovereign balm for suffering women."

Women passing through this critical period should rely upon Lydia E. Pinkham's Vegetable Compound. If there is anything about your case you don't understand write to Mrs. Pinkham, Lynn, Mass., for advice. It is free and has guided thousands to health.

When a medicine has been successful in restoring to health, actually thousands of women, you cannot well say without trying it, "I do not believe it will help me." It is your duty to yourself and family to try Lydia E. Pinkham's Vegetable Compound.

## TO MAKE THE BEST REMEDY

FINE PRESCRIPTION FOR RHEUMATISM AND KIDNEY TROUBLE.

Cut This Out and Save It or Hand It to Some Afflicted One—Relieves Nearly Every Person Who Tries It.

A certain large Eastern publication, which has no use for the patent medicine business, tells its readers of a number of simple and safe prescriptions that can be made at home. The following, however, for the cure of rheumatism and kidney and bladder troubles receives the greatest praise, viz., Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. These simple vegetable ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bedtime, drinking a full tumblerful of water after each dose. It is further stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic afflictions relieving the aches and pains and reducing swellings in just a short while.

A well known local physician states that the Compound Kargon is it does the work. It is the only drug known which acts directly upon the eliminative tissues of the kidneys; cleanses the spongelike organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

Cut this out and hand to some sufferer which would certainly be an act of humanity.

## WHY PRICE OF MILK HAS ADVANCED

(Continued.)

Seeing in the columns of your paper the article regarding the price of milk, we thought it would only be just that the people fully understand why the price of milk was raised to 7 cents. We feel confident that if the people of Newark fully understood the cost of the production of a good grade of milk at the present time they would not think 7 cents too much.

The writer has been in the dairy business five years, and I would like to give to you the corresponding prices of feed at that time and now. Five years ago we paid \$15 to \$18 per ton for bran; present price \$24. Oil meal, which is a very essential feed in a dairy, at that time was \$20 per ton; today it is worth \$36 per ton. Gluten feed, which is one of the very finest dairy feeds we have, at that time was \$18 to \$20 per ton; present price \$27 per ton. Hay at that time was \$8 or \$9 per ton; now it is \$15 to \$16, and other feeds are equally as high. We all fully understand that these dairy cows must have the best of feed and care in order that we can produce the best grade of milk, as that is what we think the people want.

The Board of Health demands that the best of feed only should be fed, WHICH SHOULD BE STRICTLY ENFORCED. I happened to meet one of the dairymen who was shipping milk to one of the largest dairies of this city. He showed me a notice from the board of health that he must come and pay \$5. I asked him if he was making the dairy business pay, and he said he had been shipping 40 gallons per day, and that it had not been paying for the feed his cows ate. If he could not make different arrangements here he would send his milk to Columbus.

We are confident that the citizens of Newark will be reasonable enough to see at once that we are justified in making this advance in the price, which will only last until nature sends forth those little green blades that make the cows smile and gives the milk that pretty rich color.

A DAIRYMAN.

## JERSEY.

Mr. Pryor, who has been teaching in the intermediate room here, resigned his position and accepted the superintendency of the Homer schools. E. M. Beam has been teaching the past week until they succeeded in getting Miss Horn of Westerville to take the school.

Work on the gas well is about ready to commence on the C. P. Thompson place.

Mrs. Viola McClay is very low with little hopes of her recovery.

Mrs. Lester Albery and Miss Ella Albery were the guests of Mrs. Merle Rugg of Outville last week.

O. A. Pierson returned home Sunday from Elizabeth, N. J., where he has been the past two weeks.

Mr. G. H. Berzer and wife went to Columbus, Tuesday.

Charles Williams of Columbus spent Sunday with friends here.

Mr. Henry Zim and wife are both confined to their home with grip.

## TEST APPARATUS TO STOP TRAINS WITHIN 100 FEET

AND THUS PREVENT DISASTROUS AND FATAL RAILROAD COLLISIONS.

## ELECTRIC EMERGENCY BRAKE

Passes Successful Trial by Experts and Engineers—Careless in Shipping Explosives.

Atlantic City, N. J., March 6.—Thirty experts from the shops of the Westinghouse company and the engineers of the Pennsylvania railroad are here experimenting with a new emergency brake that will stop a train in half its own length, going at the rate of 65 miles an hour, and it promises to revolutionize railroading and practically eliminate all possibility of accident as it has in the test's Tuesday. The experiment did not fail in a single instance during a number of trials made between Camden and Atlantic City.

Mr. Donaldson, superintendent of the Westinghouse company, is directing the experiments. An electrical device recently invented and which has for its purpose the stopping of high speed trains within a distance of less than 100 feet is being installed along the route.

Circuit breakers are being placed at intervals of 34 yards. By a simple electrically controlled switch record is made on a tonophone, or clock, in a central station of the passing of trains.

A megaphone apparatus, having for its purpose signalling to the engineer, will give warning in case of danger.

The new airbrake permits the engineer to bring the train to a full stop within the distance circumscribed by the circuit breakers.

During the tests the train is being run at a speed of 65 miles an hour, the time being increased when on a level stretch of road. It is probable tests will be made until late in April.

## OPEN VERDICT

Returned in the Blowing Up of a Train at Sanford, Indiana, January 19.

Terre Haute, Ind., March 6.—Coroner Leavitt Tuesday returned a verdict on the Sanford (Ind.) train explosion which occurred near here on the night of January 19. He found that inasmuch as the majority of the evidence as to the cause of the explosion had been destroyed he could not fix the responsibility. The Coroner said:

"I do not hold the railroad responsible in this wreck, neither do I wish to say the road is not guilty, as the evidence in hand will neither convict nor acquit."

Fifteen passengers were killed in the explosion.

The cause of the explosion remains unknown.

"I found that high explosives are shipped in a manner that is no safe. Loose powder and broken kegs of powder may be found in many shipments; bolt heads are not covered up in cars, and kegs of powder are stacked on these.

"Trains which carry high explosives are handled with no more care than other trains, and cars containing explosives are handled in a manner highly dangerous when switching is done. Cars of high explosives are accepted on the word of the shippers. When it is known that the rate on some explosives is twice that of others, and less trouble, as well as less expensive, to poorly pack them, it's plain that this is a breach of trust on the part of the railroads.

## CORONER DROPS CASE

Against the New York Central Directors For Responsibility for Fatal Wreck.

After considerable thought on the subject Coroner Schwannecke came to the conclusion early Tuesday afternoon that he would not try to bring proceedings against the Board of Directors of the New York Central and would, as far as he was concerned, let the matter drop. He said that he did this for the sake of expedition in order that the case might be presented to the grand jury by Mr. Smyth at the earliest possible moment. Any further action on his part would only be a grave delay and perhaps come to very little at last.

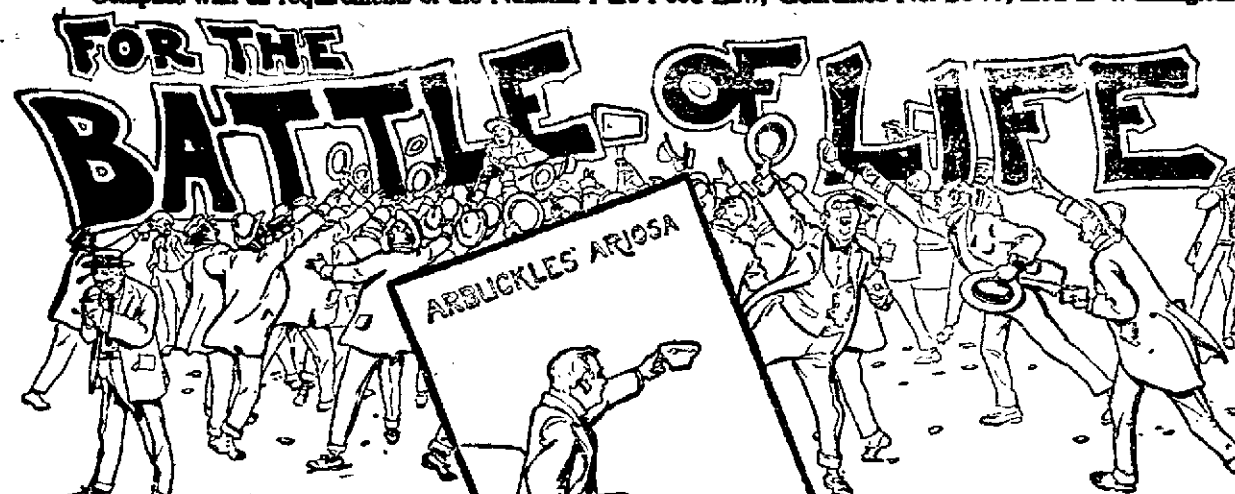

The coroner said that he had dismissed the order for the directors' appearance before him. There was no need of offering bail, either, he declared, for they were all honorable men of calibre and distinction, and would certainly not run away.

Assistant District Attorney Smyth in the afternoon said that he would present the Central case to the grand jury either the latter part of this week or early next week.

A cable foot of newly fallen snow weighs 5 1-2 pounds and has 12 times the bulk of the same weight of water.

Admiral Dewey is winning new honors. He now bears the distinction of being the best dressed man in Washington.

Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington.

Drink the old original Arbuckles' ARIOSA Coffee, the blend of Brazilian coffees, most wholesome and stimulating, as well as most economical. Anything dearer than Arbuckles' ARIOSA is extravagant, and no one can sell as good coffee for the same price. People who drink Arbuckles' ARIOSA Coffee are not dyspeptics with fashionable nerves

who take vacations in Sanitariums, on featherweight rations, but the healthy vigorous manhood and womanhood that constitute the useful majority. The first roasted packaged coffee; sales of Arbuckles' ARIOSA Coffee for 37

years, exceed the combined sales of all the other packaged coffees. In sealed packages only for your protection. Don't buy loose coffee out of a bag, bin or tin that the roaster is ashamed to seal in a package with his name on it.

If your grocer won't supply write to

ARBUCKLE BROS., New York City.

## PURITY.

Funeral services were held at Eden, Sunday, at 11 a. m. over the remains of Mrs. Samuel Jacobs, who died at her home near here Friday night, after a four weeks' illness with grip. The services were conducted by the Rev. L. O. Thompson of Newark and interment was made in the Eden cemetery. Mrs. Jacobs is survived by the husband, three brothers and one sister.

Rev. L. G. Walker will occupy the pulpit at Eden next Sunday morning and evening.

The rat hunters will give their supper here next Saturday night, March 9. Everybody invited.

Those on our sick list are Mr. and Mrs. John Hunt, Mrs. Drury, Mrs. James Meats, and Mrs. Dan Reynolds.

Carl Handel, who has been making his home with Mrs. Mary Vannstrand, is suffering with an inflammation of the mouth, supposed to be poison from chewing lead pencils at school. He has returned to his home at Newark for treatment.

R. F. Dush of Newark and Mrs. L. L. Martlett of St. Louisville spent Sunday and Monday with the former's family at this place.

Lizzie Elliott is spending a few days with her sister-in-law, Mrs. Will Elliott, who is on the sick list.

The Eden township board of trustees will meet at this place Saturday at 1 p. m. for the purpose of transacting all official business that shall be brought before the board at this meeting.

## GLENFORD.

Orval Bodie and Ella Bradshaw attended the teachers' examination at Lexington Saturday.

Mr. Thomas Shelly and family have returned home from their trip south. Mr. John Bowser is very sick at the present time.

Mr. Henry Swinehart has bought more property in Glenford.

Mr. Frank E. Mechling who had been suffering from tuberculosis had his foot amputated Thursday, February 28, and died Saturday, March 2. The funeral occurred March 4.

## YOUNG CRIMINALS GO THROUGH NEWARK TO REFORMATORY

Criminal Bailiff William Bowman, of Cincinnati, passed through the city Wednesday noon en route to Mansfield with three desperate young negro criminals. Clyde Sims, convicted of burglary, Elmer Johnson, convicted of grand larceny, and Jack Williams, found guilty of burglarizing several suburban residences in Walnut Hills. Each is up for time in the Mansfield institution. The later named negro made a practice of ringing the bells of the houses and upon the opening of the door pointed a gun at the residents and went through the rooms, securing a considerable amount of booty.

## RE-ESTABLISH GOVERNMENT.

Washington, March 6.—Plans are being laid by the President to re-establish the Cuban government by January 11 next, when the United States expects to withdraw from the island. A general election will follow the provincial elections to be held soon.

## BLOUSE DRESS FOR LITTLE GIRL.

A simple and becoming little model is shown in the illustration, the design being suitable for flannel or cloth, linen, or any of the heavier cotton materials. The frock, from which the sketch was taken was of dark blue serge, the edge of the surplus at collar being button-held and embroidered in raised dots, in old blue silk. The shield collar also showed an embroidered device done in old blue silk. The sleeves had shallow turnback cuffs, which were also embroidered.

# The Japanese Excel

In fine printings on Cotton Fabrics. Their beautiful ideas carried out in some of the smaller pieces for the household, prove attractive bits. We have just received among other pieces

## 25 Japanese Table Covers 75c Each

There are 40 in this lot, no two alike. They are 1 and 1-8 yards square, printed on a washable cotton fabric, made very attractive by their rich and beautiful combination of colorings and quaint designs, an art so well known by the Japanese.

## Only 12 Japanese Pillow Tops 25 cents Each.

We could secure only a few for this shipment, they are new, and daintily designed in rich Oriental colorings, and like table covers printed on washable materials making a very practical as well as a handsome pillow covering.

## Hand Drawn Collars 15c, 2 for 25 cents.

These also are made by the Japanese. They are hand work, fine in texture and the neatest of designs. They look as good as 25c collars. We have about one hundred in this lot and they are all marked 15c each or 2 for 25c.

# The H.H. Griggs Co

## Forward, March!

This month must be a forward movement, because February is too busy to catch a cold. No—but trade is dull in February and some stock must be moved in March that was meant for February, viz:

15 Pair, All Wool Blankets, \$4.30—at ..... \$2.98  
80 Pair All Cotton Blankets, \$1.00—at ..... 75c  
Cheaper and more durable than sheets.

48 Comforts—worth \$3.00—fancy ..... \$1.98  
Velvete Carpets are smooth and have staple colors, but will be sold, this lot ..... 25c

Wool or half Wool Ingrains to please you, 12x12 room wall paper 9 foot ceiling, with border complete ..... 80c  
And a hanger supplied if you want.

Muslin Underwear at LONG'S always was superior in material and make-up, and most garments are selling at old prices while the market is much higher.

Children's Drawers—worth 20c—at ..... 12½c  
Ladies' Skirts, deep flounce and ruffle—that sells readily at \$1.25 elsewhere ..... 98c

The Shirt Waists are excellent values and selling rapidly. Our customers appreciate the efforts we make to please them. Ask your neighbor about our waists. Silk and Net Waists sell right now.

March 16 to 20 is fixed for our Spring Millinery opening. You can hardly be asked to attend it without a more than ordinary reason. Of course, we will aim to show you the finest local and eastern styles the market affords, but you want more than sight-seeing, and a special discount will be offered on all opening sales. 10 per cent cash on 10c flowers or \$20.00 hats—everything in millinery.

Dirty, knotty Comfort Cotton is not cheap at any price, but good White Cotton Bats at 6c are cheap—larger sizes at 12c and 15c to suit the demand.

Dress Gingham are in and ready for spring sewing. While the fancy plaids in suitings add greatly to the sales of our dress goods department.

Turkish Towels need no mention, except that they are moving very nicely at 2 for 25c. No advance has been put upon our linen cravats, because they were bought in the early market—get them now.

More "Buster Brown" Shoes are selling than all other kind-combined. The reason is people are getting acquainted with them. A woman can get more wear out of a "White House" shoe than out of two cheap ones. Felt-lined Shoes and Oxfords for cold feet and cheap, too. Men's Felt-lined Work Pants, two swing pockets, two hip pockets, watch pocket—as good as two pairs, \$1.25.

# LONG'S

(OF COURSE)

Two Beautiful Pictures for 15c—with this ad.

## MCDONALD CASE IN WEST RIVALS EAST'S THAW TRIAL

MRS. MICHAEL MCDONALD

Chicago, March 6.—A coroner's jury was unable to determine whether Webster Guerin, the artist who was found dead in his studio last week, came to his death by a shot fired by himself or by Mrs. Michael McDonald, who was in the studio at the time of the shooting and is now under arrest charged with killing Guerin. The jury was out for over eight hours, and it was decided they could not agree, it was appointed to return an open verdict. The case will now go to the grand jury and the criminal court. Guerin's friends assert that he and Mrs. McDonald had been lovers for many years, and that the woman, fearing that she was losing her hold on Guerin, shot him. She was the only person in the studio with Guerin when he was killed. Occupants of the building heard the two quarreling for some time before the shooting. Mrs. McDonald is the wife of the millionaire and former political leader, Michael McDonald.

Chicago, March 6.—In Chicago and throughout the West the killing of Webster S. Guerin, a well known artist, by Mrs. Flora McDonald, wife of Michael C. McDonald, once known as "King of Chicago Gamblers" and now a wealthy elevated railway man, promises to rival in local interest the Thaw case during the trial that is to follow.

Especially will the interest be great

in the application of the "unwritten law" feature of the case. Insanity, it is said, may be the formal plea.

Raving in her cell, alternately praying, quoting poetry, calling upon Guerin to come back to life and beseeching her husband to send her away, Mrs. McDonald has made admissions which lead the police to believe it was not blackmail, but jealousy, that prompted her to kill Mr. Guerin.

A. S. Trude, who has been engaged by Mr. McDonald to conduct his wife's defense declares the artist was a blackmailer.

The tragedy took place in Mr. Guerin's studio. Mrs. McDonald broke the glass in the studio door with her revolver and tried to escape. She was caught in the shattered glass and arrested. The door had been locked and Mr. Guerin had the key.

In a confession said to have been made in the police station, during which the woman prayed that Mr. Guerin might live and she might die, Mrs. McDonald declared the artist had long been using his power over her to extort large sums of money. Her husband once loaned her about heavy withdrawals from her bank account, and she told him she would settle in full. The slaying of Mr. Guerin is believed to be this "settlement in full."

from procuring the remedies from any wholesaler or retailer under contract, and from advertising and selling these products at less than the established retail price, and from mutilating cartons, wrappers or labels. A demurrer to the bill was overruled by the court below and an injunction awarded pendente lite.

Judge Lorton's decision which was an exhaustive one, is that the contract of the complainant was in the nature of a monopoly, and a restraint of trade, as it maintained prices and controlled sales.

### TOBACCO TRUST LOSES.

Versailles, Ky., March 6.—In overruling the demurrer of the American Tobacco company to the petition of the Woodford County Board of Control of the Burley Tobacco Society, praying an injunction to restrain any of the tobacco pledged to the society in Woodford county, special Judge Marshall, held the act of the last legislature, authorizing the pooling of farm crops was valid, also, that the pledged contracts of the Burley Tobacco Society are valid and enforceable and that the society itself was properly and legally incorporated.

### Situation at Portsmouth.

Portsmouth, O., March 6.—Hopes for a peaceful settlement of the street railway strike are again entertained. W. B. Fitzgerald of Troy, N. Y., an executive board member of the American Association of Street Railway Employees, who has taken complete charge of the strikers' grievances, and the Retail Merchants' association committee, have reopened negotiations towards adjusting the trouble, and should both fail a mass meeting of business men will be called to devise some plan for ending the present strife, which is having a paralyzing effect on business generally.

Portsmouth, March 6.—The street railway strike will probably be settled before night. The company has agreed to a conference with the strikers. The cars are running guarded by deputy sheriffs. They are unopposed, but are boycotted.

## STIFF SENTENCE GIVEN SAVAGE

### WHO PLEADED GUILTY TO GIVING LIQUOR TO YOUNG GIRLS.

Testimony of Girls Would Indicate That the Transient Artist Drugged the Whisky.

Marietta, O., March 6.—Changing his plea to guilty on the charge of furnishing liquor to minors, W. W. Savage, the transient artist who was arrested Sunday night, was given the limit in the way of a fine in police court Tuesday. He was given \$100 and costs and a 30 day sentence in the county jail was also imposed, which means that he will spend about 240 days in confinement.

Savage was arrested Sunday evening, in his place were found three little girls, all of them under the influence of liquor.

When Mayor Leeper found that Savage had pleaded guilty and thrown himself on the mercy of the court, he asked to hear the stories of the little girls. Alma Rech was the first one called. She told of how she had worked on Saturday for Savage, and had been requested to come back at 10 o'clock Sunday morning, to help clean out the room. Her older sister went to the place with her and they afterwards got Lorena Butz, another small girl to go. Savage complained of being sick and got liquor. The girl testified that the man came back and after placing a small tablet in the whisky, told them that if they did not drink it he would kill them. All three took a small drink and after a while the two younger ones took more.

Lorena Butz was then called and her testimony was about the same as that of the preceding witness. The older Rech girl told about the same story. Frank McCann was then called and told of how he found the man and little girls in the room together.

Savage then asked permission to go on the stand and tell his story. This he did, denying that he had forced the girls to drink the liquor, saying that they asked him for some of it, and stole the rest while he was in the front part of the room.

## BISHOP VINCENT TO VISIT NEWARK

### AND WILL CONFIRM A CLASS AT TRINITY CHURCH FRIDAY EVENING.

Free Organ Recitals and Other Special Services During Lenten Season.

On Friday evening of this week, the Rt. Rev. Boyd Vincent, bishop of the Diocese of Southern Ohio, will make his annual visitation for the purpose of confirmation. The bishop will preach the sermon. The offertorium for this evening will be a selection from J. H. Maunders' sacred cantata, "Olivet to Calvary." Selections from this work are also sung at all the Sunday services during Lent. On Good Friday evening, March 29, the entire work will be given with prominent soloists. "Olivet to Calvary" is Mr. Maunders' latest work in this line, and is looked upon as a work of rare merit. It is being sung this season by many of the great churches all over the country.

The fourth of the series of free Lenten organ recitals at Trinity church will be given on Thursday afternoon at 3:30 o'clock. The program, which includes several notable numbers, is as follows:

Toccata and Fugue in D minor, Bach.

Fantasia on "O Sanctissima," Lux.

Barcarole in D, Lemare.

Grand chorus in D, Guilman.

J. S. Bach, the composer of the first number, is nowadays considered the greatest musician the world has ever produced. He was at the same time the greatest organist and composer for the organ, who has ever lived. While he was very celebrated in his own time, yet his fame and influence have constantly increased during the 150 years and more since his death. This Toccata and Fugue in D minor is one of his most admired best known works for the organ. The second number on the program contains one of the most difficult passages for the pedals that has ever been written.

Have a good laugh at the Crescent Pink Thursday night. Novelty Barrel Race. 5-3t.

## NEW MUSLIN UNDERWEAR

### TO ADD TO YOUR WARDROBE

## WITH COURT AND COUNSEL

District Attorney Jerome Engages In Series of Tiffs.

### MADE THE SESSION NOTABLE

Doctor Wagner, One of the Alienists For the Defense, Under Cross-Examination — Thaw's Mental Condition Following the Tragedy—The Day's Proceedings.

New York, March 6.—Dr. Charles G. Wagner, one of the alienists for the defense, was again a witness under cross-examination in the Thaw trial. The session was made notable by a clash between District Attorney Jerome and Justice Fitzgerald, at the climax of which the prosecuting officer refused point blank to cite to the court the authorities upon which he was predicated an argument. Mr. Jerome was requested by the presiding judge to submit to him whatever authorities he had upon the subject. "I have such a high respect for the courts of this jurisdiction," retorted Mr. Jerome, "that I will not submit authorities on a question of law which is so elemental in character and upon which the authorities are so abundant that I must presume the learned court knows of them." The judge replied if the district attorney did not submit the authorities the court would assume that he did not know of any. Mr. Jerome did not submit the authorities and Justice Fitzgerald ruled in favor of the defense on the point at issue, which, briefly stated, was the question as to whether the state on cross-examination should be allowed to go no further with an expert witness than the counsel for the defense was allowed to go upon direct examination.

The incident began with an objection interposed by Mr. Delmas to a question asked Dr. Wagner by Mr. Jerome. The district attorney wanted the witness to repeat certain conversations he had had with Thaw in the Tombs. Mr. Delmas protested that he had not been allowed to go into those conversations on direct examination. He was proceeding at some length to state the position of the defense, when Mr. Jerome interrupted with the remark that the argument did not call "for a stump speech." Mr. Delmas protested against this "offensive language" by the district attorney. Justice Fitzgerald interposed in the discussion and Mr. Delmas was soon lost to view because of the turn affairs took.

During the course of his argument the district attorney placed himself on record by saying that the legal assumption before the court today is that Harry K. Thaw is insane. He declared the alienists for the defense have shown Thaw to have been insane as late as Sept. 22 last, and in the absence of proof to the contrary, the assumption is that he remains insane. Justice Fitzgerald declared that the present jury only has to do with the question of Thaw's sanity or insanity on the night that he shot and killed Stanford White.

Dr. Wagner was allowed to give his conversations with Thaw during the period that he believed the defendant to be of unsound mind. He said Thaw remembered having approached and having shot White. He protested, however, that he had not intended at any time to kill the man, but wanted to have him legally punished.

"What did you learn when you visited Thaw Oct. 1?" asked Mr. Jerome. "As I did not visit him on that date, I did not learn anything," retorted Dr. Wagner.

"Well, Oct. 3, then?" "Mr. Thaw was still restless and suspicious in manner, but these symptoms were not so marked as before."

The witness was asked regarding Thaw's will and codicil, and said he would not characterize the insanity they indicated as paranoia. He admitted, however, that the delusions might be somewhat paranoid in type.

## POLITICAL LEADER DID NOT APPEAR

San Francisco Attorney Charged With Extortion Claims Proceedings are Barred

San Francisco, March 6.—Abraham Ruef, the local political leader, who recently secured a writ of error from Superior Judge Hebbard, did not appear before Superior Judge Dunne for trial on the indictments for alleged extortion returned by the grand jury. Ruef and his attorneys considered that the action of Judge Hebbard acted as a bar to further proceedings before Judge Dunne, on the ground that following the granting of the writ steps had been taken to carry the case to the supreme court of the United States, the federal appeal being based on the plea that Ruef had been deprived of his constitutional rights.

## HARRY THAW, LADEN WITH LETTERS, AS HE APPEARS IN COURT.

(COPYRIGHT, 1907, BY THE NEW YORK HERALD CO.)

HARRY K. THAW AS HE ENTERED THE COURT ROOM YESTERDAY

NEW YORK, March 6.—Stanford White's slayer receives hundreds of letters every day in the Tombs, and these he brings to court to read and classify and answer or ignore, as the case may be. Many of these letters are of the begging variety and are not answered.

## DUCHESS COMING TO MAKE HER HOME IN NEW YORK CITY

New York, March 6.—A. W. Eager, manager of the Hotel Marlborough, announced that a suite of rooms had been engaged at the hotel by the Duchess of Marlborough, formerly Miss Consuelo Vanderbilt, and that she would occupy them on April 13. Mr. Eager said that negotiations had been opened with representatives of the duchess some time ago, when she determined to live in this country.

Germany to Seize Coal Lands. Teheran, March 6.—Failing to get satisfaction for the recent murder of a German missionary, it is reported that Germany intends to occupy certain coal lands on the frontier near Bagdad, which she has long desired for the purpose of the Bagdad rail road.

## DECLINES TO GO WITH WELLMAN

German Aeronaut Says He Does Not Think Balloon Polar Expedition Will Succeed.

Berlin, March 6.—Walter Wellman, head of the polar expedition, recently wrote a letter to Captain Von Krosch, one of the best known German aeronauts, inviting him to be his assistant in the attempt Mr. Wellman will make this summer to reach the north pole in a balloon. Captain Von Krosch has declined this invitation, believing that dirigible ballooning has not reached a stage of perfection that guarantees the success of a polar attempt.

Chancellorship of Oxford. London, March 6.—An interesting contest is imminent between Lord Curzon and Lord Rosebery for the vacant chancellorship of Oxford university. It has been supposed that Lord Curzon, who was nominated to this office some days ago, would be returned without opposition, but now Lord Rosebery also has accepted a nomination, and the matter will be decided on March 14, when the election will be held.

### Served in Fifth Ohio.

Washington, March 6.—Captain David J. Gibbon, U. S. A., retired, died at the army general hospital, Washington barracks, from brights disease. Captain Gibbon was born in Cincinnati in 1843 and served throughout the civil war in the Fifth Ohio infantry. He entered the signal corps in 1879, and was the first man commissioned as an officer in the regular army in the signal corps. Captain Gibbon was the inventor of a number of the instruments now in use in the weather bureau.

## NICARAGUANS ADVANCING ON HONDURAN SOIL

Mobile, Ala., March 6.—The Thacker line steamer Mercator arrived from Puerto Cortez, Spanish Honduras. According to statements of passengers arriving on the Mercator Nicaraguan forces are on Honduras soil in great numbers and making rapid advances. There is fear, according to the passengers, that General Lez Christmas is hemmed in in the Olancho district. In Puerto Cortez preparations are being made in event of an attack, which is feared, not so much from the Nicaraguan land forces as the small navy of that country. "What Honduras fears more than her war with Nicaragua," said a passenger, "is internal troubles. A revolution among its own people is threatened; in fact, there are signs of revolt on every side."

Thirty-five Thousand Bills. Washington, March 6.—During the Fifty-ninth congress 34,379 bills and joint resolutions were introduced in both the senate and house, about a fourth more than in the Fifty-eighth congress. There were 26,154 house bills, and of these about 6,940 became laws, about the same proportion of senate bills receiving approval.

Iroquois Case. Danville, Ill., March 6.—The jury is now complete for the trial of Will J. Davis on a charge of manslaughter, growing out of the Iroquois theater fire in Chicago. The jury contains seven farmers, one blacksmith, one miner, one merchant, one real estate agent and one insurance solicitor. It required two days and 75 veniremen to secure the jury.

## BURTON INVITED TO GO WITH TAFT TO THE ISTHMUS

Washington, March 6.—Secretary Taft has invited Senator Kittredge of South Dakota and Representative Burton of Ohio and DeArmond of Missouri to accompany him on his approaching trip to Cuba, the isthmus of Panama and Porto Rico, and they have accepted the invitation in order to acquaint themselves with conditions in these places as to help them in participating in the legislation in the next congress relative thereto.

Some forms of animal life are so tiny that 2,800,000,000 could be put in a space of one-thousandths part of a cubic inch.

## FOR DIVORCE AND CHILD

Wife of Dan R. Hanna Files Suit in Cleveland Courts.

### CRUELTY AMONG CHARGES

Superintendent of Cleveland State Hospital Resigns — Wealthy Widow Murdered and House Robbed—Witness Refuses to Answer Questions. General News of Ohio.

Cleveland, O., March 6.—In common pleas court, a suit for divorce was filed by Elizabeth Gordon Hanna, wife of Dan R. Hanna, only son of the late Senator Hanna. Hanna is accused of gross neglect of duty, abandonment and extreme cruelty. Hanna asks for divorce, adequate alimony and the custody of her daughter, Elizabeth, age five years. The petition was sworn to before a notary in New York city under date of March 1. The plaintiff is Hanna's second wife, her first husband being Walter DeS. Maud, an Englishman. She was di-

DAN HANNA.

forced in 1900, and on Feb. 19 of the same year she was married to Dan Hanna. Hanna also has been married twice. His present wife resided in New York city since early last fall. She is the daughter of the late Charles W. Gordon, a millionaire, who bequeathed to the city of Cleveland Gordon park.

### Witness Before Court.

Columbus, O., March 6.—Henry C. Lang, Columbus manager of the Cleveland Trinidad Paving company, who was called as a witness before the grand jury which is investigating the charges of alleged bribery in connection with the East Broad street paving contract, refused to answer any questions put to him and was promptly brought before Judge Evans in the criminal court. The grand jury submitted a copy of the questions which Lang had refused to answer to the court, and Judge Evans ruled that the witness must answer the questions or claim his constitutional right. Lang is charged in an affidavit filed in police court with bribing two city officials, and his attorneys contended that if he admitted the questions propounded tended to incriminate him it would prejudice his case.

### "Black Hand Victim."

Canton, O., March 6.—Post-mortem investigation by Acting Coroner Barry developed that the unknown Italian found hanging to a tree four miles from Canton, and who was supposed to have committed suicide, was murdered.

### THE WINTER'S SKIDOO.

Well, if I'm going, I'm having some fun!"

dered. The man's skull was fractured and the body was badly bruised. Officers are investigating on the theory that the victim was lured into the vicinity by the "black hand" Italians, murdered, and his body hung to a tree to create the impression he had committed suicide.

Founder of Silk Company. Cincinnati, O., March 6.—David Wilson Belding, president and founder of the Belding Silk Company, died at his home in this city, aged 75 years. With his brothers he founded the silk business, having extensive factories in Connecticut, Massachusetts, Michigan, California and Canada. Mr. Belding retired from active business four years ago and has been in feeble health for some time, death being due to paralysis.

Howard Steps Out. Columbus, O., March 6.—Dr. A. B. Howard, superintendent of the Cleveland state hospital, who was here attending the meeting of the superintendents of the various state institutions, confirmed the report that he had tendered his resignation to the board of trustees. The trustees have been considering the appointment of a successor to Dr. Howard, and will probably select some one from the present staff of physicians of the hospital. Dr. C. O. Jaster has been mentioned as the probable choice of the trustees. Dr. Howard's resignation is the outgrowth of the recent investigation of charges of cruelty to patients on the part of attendants at the Cleveland hospital.

Frank Campbell. East Liverpool, O., March 6.—Frank T. Campbell, formerly lieutenant governor of Iowa, ex-state senator and commissioner of railroads and veteran editor, is at the point of death at the home of his brother at Lisbon, O. He is a brother of Postmaster Campbell of Lisbon and of Postmaster J. Q. A. Campbell of Bellefontaine, O.

Poisoned Cheese. Delaware, O., March 6.—Two families came near being wiped out here by poisoned cheese. For several hours the members of Frank Pickelbaum's and John Locker's households lay at death's door after eating troytoxon, a poisonous compound which forms in milk. None of the 10 people will die, but all are seriously ill.

Findlay Man Found Dead. Pittsburg, March 6.—Rudolph M. Enz, 25, of Findlay, O., was found dead in his boarding house from taking carbolic acid with suicidal intent. A letter from his sister telling him to "be good" and 20 cents were found on the body. It is thought Enz killed himself because of his failure to get employment.

Bitten by Drunken Man. Springfield, O., March 6.—Frank Lewis, a traction conductor, lost his right hand as the result of a drunken man biting him several weeks ago. Lewis attempted to put the man off his car and he sank his teeth in the fleshy part of his hand, blood poisoning resulting. The hand was amputated.

Natural Gas Explosion. Toledo, O., March 6.—A natural gas explosion wrecked the residence of George Turner, at Genoa, and Mrs. Turner was so badly burned that it is doubtful if she recovers. The explosion blew the entire end of the dining room out and broke nearly all the windows in the building.

Bullet Wound in Head. Urbana, O., March 6.—Lying in a pool of his own blood, John S. Palmer, one of the owners of the Brune elevator at Mechanicsburg, was found dead in his room at the Anderson inn in that village. He shot himself through the temple with a revolver, which was lying by his side. The unfortunate man went to Mechanicsburg three weeks ago from Shreve, O., where he has a wife and three children living.

May Succeed Corey. Youngstown, O., March 6.—A message to steel men here says that W. E. Corey, at the head of the United States Steel corporation, will retire on June 1. Alvin C. Dinkley, president of the Carnegie Steel company, is slated to succeed him, and Dinkley's place will go either to I. W. Jenks, manager of the steel hoop plants of the Carnegie company, or A. R. Hunt, general superintendent of Homestead plant.

Confesses to Arson. Bryan, O., March 6.—After paying back all the insurance he received on buildings to which he had hired a man to set fire, James A. Phillips of Williams Center pleaded guilty to charge of arson and Judge Killeit sentenced him to 15 months in the penitentiary. The insurance paid back, with interest, amounted to \$1,500. Phillips' residence in Williams Center was destroyed by fire on April 19, 1897, and on the loss he was paid \$1,200. Phillips was at one time minority director of De finance county and is wealthy.

Rich Woman Murdered. Cleveland, O., March 6.—Mrs. Minnie Sherman, a wealthy widow residing Euclid avenue was found dead in her home under circumstances pointing to murder. The police are working on the theory that the woman was drugged with poison and robbed. An autopsy will be performed by the coroner. The authorities found the house rifled and the dead woman's body lying on the floor, her eyes dilated as if from the effects of poison, the doctors declare. Her jewelry was gone and her strong box emptied.

## SEEK SCALP OF STOLYPIN

Members of Duma Hold Premier the Foe of Progress.

### DEMAND HIS RESIGNATION

Revolutionary Demonstrations Follow the Opening of the Russian Parliament—Troops Use Whips on the Crowds in the Streets—Conference Between Leaders.

St. Petersburg, March 6.—Several consultations have been held here by the leaders of the opposition in the duma, or lower house of the Russian parliament, to see whether some sort of compromise with the government was possible, but after full consideration it was announced by Professor Milukoff that no arrangement could be made so long as M. Stolypin remained at the head of the cabinet. The opposition demand the premier's resignation, and do not expect to do any constructive work until it is received. This attitude leads to the belief that the second duma will follow the steps of the first, the parallel extending to dissolution. The leaders of the opposition, who believe that what they call "the sacred anger of the people" will be aroused by the dissolution of the second parliament, claim to have assurances that no further loans can be negotiated abroad without the consent of the duma.

The opening of the duma was made the occasion of a revolutionary demonstration by the St. Petersburg proletariat and the students of the city, which resulted in several encounters between the police and the populace, and more or less serious injury to a number of the latter. The situation was such that the authorities were finally forced to fill the streets with military patrols, as in the days of the Trepoff regime. A tumultuous crowd, estimated to number close to 40,000 persons, with red banners flying and accompanied by the music of revolutionary chants, started like the followers of Father Gapon on Jan. 22, 1905, toward the central quarter of the city, where the winter palace is located. Few elements of the prelude of "red Sunday" were lacking, and the command "fire" would have precipitated a similar massacre. But the present prefect of St. Petersburg, General Drachevski, followed another course and dispersed the procession by charges of mounted gendarmes armed with whips, and by an imposing display of force he prevented the demonstrators from reforming.

Another monster demonstration was held at the university to celebrate the "victory of revolutionary democracy." The way along the Neva and streets in the neighborhood of the university were densely packed, but there was no interference by troops or police, who arrived in strong force only after the demonstration had come to an end.

## BLIZZARD SWEEP OVER PITTSBURG

Thunder and Lightning During the Snow Storm a Most Unusual Phenomenon.

Pittsburg, March 6.—This city was suddenly enveloped in a snowstorm that resembled a blizzard, and for an hour all streetcar service was crippled, many lines being tied up because of the inability of motormen to see beyond a few feet ahead of them. In the height of the storm thunder and lightning were frequent, telegraph and telephone lines were seriously affected, shutters and chimneys blown down, and pedestrians were obliged to seek shelter from a 52-mile northwestern wind. Within a half hour the mercury dropped 15 degrees. One death as a result of the storm was recorded.

## SEARCH MADE OF EVERYONE AS HE ENTERS

Jackson, Ky., March 6.—Forty men of Company A, Second Kentucky Infantry, of Louisville, arrived here to remain during the trial of Judge James Hargis on a charge of assassinating Dr. B. D. Cox. The soldiers were ordered to search everyone entering the courtroom, and were searched as they entered the courthouse. This was done. Hargis refused to agree to the request for a change of venue.

Thomas A. Edison has left the workshop to play the rest of his life. He certainly has earned his vacation.

## QUESTIONS FOR NEW TEACHERS

There Are a Great Many Brain Puzzlers in the List.

MADE UP BY STATE COMMISSIONER

Examination Tests for Teachers in Elementary Schools—By Their Answers to These Questions Those Who Desire to Teach Show Whether They Are Grounded in the Fundamentals of Education.

Following is the list of questions as prepared under direction of the state commissioner of public schools, and submitted at the county examination of teachers March 2 for elementary school certificates:

### THEORY AND PRACTICE.

- The first five questions are based on "Rational Living" by Henry C. King.
  1. Explain or paraphrase the following proverb: At forty every man is either a fool or a physician. Is it true of the physical or the intellectual life or of both?
  2. What is Prof. James's theory of the emotions?
  3. What indications of the necessity of abundant physical activity are noticeable during adolescence? How great a part should "muscular" training play in education at this stage?
  4. Emphasis on what branches of the school curriculum does the above question suggest?
  5. State at least one fact about the philosophy or teachings of two of the following each of whom is constantly referred to by King: Kant, Lotze, James, Stanley Hall, Locke.
  6. Name one work on the history of education, two works on the theory and practice of teaching, and two educational journals which should prove valuable to any teacher.
  7. State one argument for, and one against, the teacher's having control over pupils on the way to and from school.
  8. Should all children be punished alike for the same offense? Why or why not?
  9. Do you believe it advisable to adhere closely to a set daily program? Why, or why not?
  10. What studies are ordinarily pursued in the fifth grade of a graded school? How much home study would you expect of pupils in this grade?

### GRAMMAR.

1. Looking out, there was scarce anything to be seen but the lashing of the wind and snow, and the men, when they finally attempted to face it to go to the rescue of the cattle overladen in the field, found the air filled with fine, powdery flakes, mixed with dirt, caught up from the plowed land by a terrific blast which moved almost ninety miles an hour and made it impossible to see twenty yards ahead.
- The first seven questions refer to the selection given above.
  1. What kind of sentence is the above? Name (as to subject and predicate) all principal clauses. Classify all subordinate clauses.
  2. Give the syntax of four infinitives.
  3. Point out all the different uses of the participle found in the selection.
  4. Classify six adverbs.
  5. Parse in full *it* (5) and *it* (11).
  6. What does each of the following modify: *scarce* (1), *mixed* (8), *ninety miles* (11), *an hour* (11), *twenty yards* (12)?
  7. Parse in full *nothing* (2), *but* (2), and *impossible* (12).
  8. What are the principal parts of a verb? Why are they so called?
  9. Write sentences illustrating the use of conjunctive adverbs, correlative conjunctions.
  10. Classify (as to part of speech) each of the italicized words in the following: "What but praise can be ascribed to those whose lives were freely given for their country that perpetual freedom might be ours."

### ARITHMETIC.

1. Define the following: decimal fraction, below par, Arabic notation, compound denominator, number, cancellation.
2. How many feet board measure are there in a plank 17 ft. long, 22 in. wide at one end, 13 in. wide at the other, and 3 in. thick?
3. A commission merchant sold a consignment of flour and pork for \$25,772; he charged \$132 for storage and 4% commission. What were the net proceeds of the sale?
4. A druggist bought 5 pounds of opium by avoirdupois weight at \$8 a pound, and sold it by apothecaries' weight at \$1 per ounce. How much did he gain?
5. An army lost in one battle 2-17 of its men and in another battle 2-7 of the remainder, after which there were 15,120 men left. How many men were there in the original army? Analyze.
6. A man engaged in business with a capital of \$22,500, is making 10% per annum on his capital; but on account of ill health he quits his business, and loans his money at 6 1/2%. How much does he lose in 2 yr. 5 mo. 10 da.?
7. At what time between four and five o'clock are the hands of a clock together?
8. If a cistern 17 1/2 feet long, 10 1/2 feet wide, and 13 feet deep, holds 240 barrels, how many barrels will a cistern hold that is 16 feet long, 7 feet wide, and 15 feet deep?
9. A man paid \$10,950 for 6% railway stock at 110%, brokerage 1/4%; how many shares did he buy? What

was his annual income from the stock? 10. Find the greatest common divisor of 1 5-13, 1 7-15, 1 3-20.

### WRITING.

For this branch examiners will grade the manuscript in orthography.

### ORTHOGRAPHY.

1. Mark the vowels correctly in each of the following: faint, maele, slaior, sough, avalanche.
  2. Explain the difference between accent and emphasis.
  3. Spell correctly and define the following: conicula, manual, barmical, fontinal, monole.
  4. Supply the missing prepositions in the following: (a) I differ \_\_\_\_\_ you; (b) I am disgusted \_\_\_\_\_ it; (c) His performance was good, but not equal \_\_\_\_\_ his. (d) Distinguish \_\_\_\_\_ the three following words.
  5. Give one homonym of each of the following words: rouse, muscle, loot, plate, time.
- These words are to be pronounced by the examiner: delecter, beguile, promontory, treacle, commodious, indispensable, condole, penance, plague, adamant, gossamer, Libran Desert, chamois, cantos, reverable, decorator, grinnast, leacon, adequate, lesion, menacing, peaceable, shoeing, Naunee, spaniel.

### UNITED STATES HISTORY AND CIVIL GOVERNMENT.

1. Explain fully why Roger Williams was banished from Massachusetts. What settlement did he found?
2. How did each of the following obtain its name: Carolina, Plymouth, Virginia, Lake Champlain, Baltimore?
3. Explain the importance of the defeat of the Hessians at Trenton.
4. When, how, and with what effect, did France recognize the colonies as an independent nation?
5. What was the condition of the United States with regard to (a) commerce, (b) finances, and (c) prestige, at the close of the War of 1812?
6. When, and with what conditions as to slavery, was each of the following states admitted to the Union: Ohio, Texas, Missouri?
7. At the opening of the Civil War it was one of the government's objects to secure control of the Mississippi River. Show how this was or was not accomplished.
8. Describe the nature and effect of "Carpenter Government" in the South.
9. Give, in substance, the fifteenth amendment to the constitution. In whose administration was it passed?
10. Mention three methods of raising money for the Federal government.

### GEOGRAPHY.

1. Discuss the mountain systems of Europe as to general trend, greatest height and influence upon drainage.
2. Compare Massachusetts with Ohio as to the nature of its manufactures; California with Spain as to natural products.
3. Tell all you can about the physical and political geography of the Sudan.
4. Nevada and Illinois are in practically the same latitude. Account for the difference in fertility.
5. Locate seven cities, limiting the names to the following list: Kingston, Springfield, Frankfurt, Georgetown.
6. Give the source and relative length of the following rivers: Mississippi, Volga, Amazon, Congo.
7. What is an ocean current? What ocean current flows along the east coast of the United States? The east coast of Japan?
8. With regard to either the province of Manitoba or the province of British Columbia state its chief products, its exports, and one river that flows through it.
9. Explain what effects mountains and rivers may have in determining the occupations of a state or country.
10. What is meant by "the summer solstice"? When does it occur?

### LITERATURE.

1. Write briefly upon the travels of Washington Irving and mention at least four of his contributions to literature.
2. What can you say of the life and poetry of Anne Bradstreet? How was she considered by her own generation?
3. Discuss Concord, Massachusetts, as a literary center.
4. Give the authorship and a brief summary of the subject matter of any two of the following: The Vision of Sir Launfal, The Prisoner of Chillon, Marion, L'Allegre, any one of the Idylls of the King.
5. For what historical work is George Frothingham noted? John Lathrop Mather? William Prescott?
6. Show by reference to American prose that patriotism has played an important part in the literary inspiration of the country.
7. Mention your favorite American novelist and tell why you like his works best.
8. Show how you would exemplify correlation of studies in the teaching of English.
9. Find the quotation that you are familiar with at least one of Shakespeare's plays.

### PHYSIOLOGY.

1. What advantage is derived from the contraction of muscles? Why are muscles arranged in pairs opposite each other?
2. What is approximately the normal temperature of the body? How is an even temperature maintained in the body?
3. Why are the arteries elastic? How do you distinguish between venous and arterial blood?
4. Distinguish between the function of motor and sensor nerves. What part of the nervous system is the seat of reflex action?
5. Locate in order from the mouth: duodenum, jejunum, pylorus, pancreas, rumen. What have the pancreas and duodenum to do in the work of the body?
6. Name three coats of the eye.
7. What kind of a lever is used when the forearm is raised by bending the elbow joint? Explain.
8. In bones what is the function of each of the following: periosteum, marrow, Haversian canals?
9. What is alcohol a thirst producer?
10. What are sedatives? Why should they be used as seldom as possible, even in illness?

### READING.

Examiners will conduct an oral examination in reading.

## MR. NOVELLI HERE FOR ENGAGEMENT.

MR. ERMETE NOVELLI, SCHYLOCK

NEW YORK, March 6.—Mr. Ermete Novelli, a leading actor of the Italian stage, has arrived from the City of Mexico. On March 18, Mr. Novelli appears for the first time in New York in the Lyric theater. After a brief engagement in Philadelphia, following his New York appearance, he will sail for Italy. When in Mexico he gave thirty performances only, going there by special arrangement with the government. Mr. Novelli said that what impressed him most about New York was its vastness.

## AQUATIC EVENTS AT JAMESTOWN

Will Include Yacht and Motor Racing, Swimming Contests and Naval Display.

(By John T. Maginnis.) Norfolk, Va., March 6.—The interest aroused among the amateur oarsmen of the country imbued perhaps as much from a desire to see the exposition and the great naval and military spectacles as by sporting enthusiasm, promises a place to aquatic events not second to any feature of the exposition.

Despite some opposition to the selection of the Hampton Roads course the National Association of Amateur Oarsmen will row at the Jamestown Exposition and the throngs of visitors will learn to feel an interest in something they see talked or written about, but have known nothing of in the way that personal observation excites.

There will also be on the water, yacht racing, motor boat racing and swimming contests. The courses selected by a committee which recently went over the waters near the exposition in a steam launch are two in number—a short course, lying along shore, inside Willoughby Spit and parallel to the spit; the other at right angles to it, along the exposition grounds, towards the Elizabeth river and extending from the government pier at the exposition to a point near Crane Island light.

These courses, within the protection of the spit and additionally protected, the first by the spit and lying entirely within Willoughby Bay, and the other with the long government double pier acting as a breakwater, will afford at nearly all times smooth rowing, while the magnificent boulevard along the water front of the Jamestown exposition grounds will afford a vantage to the crowds of onlookers, unexcelled by any course in the country, not excepting those at New London and Poughkeepsie, while the straightaway is inimitably better than the Harlem river, with its turns, bridges and traffic.

The events must of necessity have enormously larger crowds of spectators than are ordinarily drawn to regattas, and the sport must inevitably give a great spur to rowing among people who have not had their interest sufficiently aroused to take it up and in the same proportion are the boat makers likely to profit.

The exposition boulevard along the shore of Hampton Roads is more than 200 feet wide and on it front the many beautiful state buildings with their colonial pillared verandas, from which thousands of visitors may view the races.

A very large number drawn to the exposition by rowing will find especial interest in the round of athletic under the auspices of the Amateur Athletic Union.

Ten is one of the finest shore hostleries on the coast. The government's double pier will be one of the attractions of the exposition, 1600 feet long, its two arms, 800 feet apart, are connected at the outer end forming a basin, the walk around which will be 3,200 feet. From this pier which will be the naval landing, visitors may also see the boat races.

The committee from the National Association while in Norfolk were cared for by the Portsmouth and the Elizabeth River Boat Clubs.

The canoe trail, several miles long, the Japanese and Philippine reservations and the Indian and Wild West Shows, the reproduction of "Old Jamestown," the Battle of the Monitor and the Merrimack, reproduced on Hampton Roads, the direction of the navy, the Congresses, and finally the "War Path" will make Jamestown—by that is meant the exposition on Sewell's Point, some 50 miles from Jamestown proper, the island where once stood the little village of first settlers—a memorable year to the oarsmen who have their regattas this year in Virginia waters.

### NEWARK BUSINESS COLLEGE.

Day and Night School. Guaranteed best; no solicitors; good goods and their own market; never changes hands; graduates in high positions. See catalogue. Lansing Block. S. L. REENEY, Principal.

MODEL FOR CREPE, VOILE OR SILK GOWN

The model frock was in pale violet crepe, the princess skirt being fitted about the waist and over the hips by narrow box plaits stitched flat. Tucks and inset plaits of dyed lace ornamented the lower part of the skirt, the foot flounce being gathered on slightly below this lowest tuck. The bodice was laid in plaits at the shoulders, and was draped into a square of the lace in front. The sleeve was also draped. The gimp of tucked net and lace was outlined by a bias fold of embroidered satin, sections of the embroidered satin also being placed in the center of the lace squares used about the bodice and skirt.

## GRANGER CASE

Facts Concerning Boy Who Was Electrocutated in New York Recently For Murder.

(Communicated.)

Owing to the wide publicity given through the Advocate of the fact that George Granger, who was electrocuted at Ossining, N. Y., Feb. 25th, was a Christian Scientist at the time of his execution, your readers will doubtless be interested in the following facts:

Granger, a boy under twenty, was convicted of murdering his employer. It is stated that he grew up without any religious training and that he had no Bible instruction, until Christian Science was brought to him in prison. By Mrs. Charles S. Hickok, a Christian Science practitioner of Poughkeepsie, New York, who became his spiritual adviser. It is stated that during his trial, he was so wrought up, by fear or otherwise, that he acted like one beside himself, although it was not understood that he was of unsound mind. While confined in the jail at Poughkeepsie he learned of Christian Science through the work being done among the prisoners by a committee of Christian Scientists, and it is generally conceded that Christian Science made a great change in him. The fear of death seemed to have been absolutely destroyed. Representatives of the press all commented on his behavior, and that he went to the chair without a sign of bravado, and apparently without a particle of fear.

He became gentle, and humble, and freely admitted his guilt, expressing deep penitence for his crime. Owing to the fact that a woman was his spiritual adviser, the chaplain of the prison accompanied him to the place of execution.

### SUMMIT STATION.

Mr. G. W. Holcomb is lying very ill at the home of his son, J. D. Holcomb. His death is expected at any moment, as this is the second stroke and his advanced age, being 71 years old, is against him. Mr. Holcomb was a soldier in the Civil war and has been in poor health for some time.

Prof. Earl Osborn was in Columbus Sunday.

Mr. and Mrs. Charles King and children of Rome, Franklin county, spent Sunday and Monday with relatives at this place.

Mr. and Mrs. E. S. Brownfield spent Sunday with Mr. and Mrs. Carl Osborn of Brice, Ohio.

Reed Johnson was in Newark Saturday.

Mrs. David McIntosh and daughter, Mrs. J. T. Shawn spent Sunday with X. F. McIntosh and family of Newark.

Mrs. Jane Cashdollar is quite poorly at this writing.

Mrs. Claud Blaney and children are spending a few days with Alonzo Morland and family.

Wales' Carnegie is David Davis, member of parliament from Montgomeryshire. He has given Aberystwyth a collection of Soudanese armor, promised \$115,000 for new laboratories, and has set aside \$150,000 for ministerial work in connection with the Welsh Calvinistic denomination.

## Many School Children are Sickly. MOTHER GRAY'S SWEET POWDERS FOR CHILDREN.

Mother Gray, for years a Nurse in Children's Home, New York, treated children successfully with a remedy, now prepared and placed in all the Drug Stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk. Pleasant to take and never fail. A certain cure for Feverishness, Constipation, Headache, Teething and Stomach Disorders and remove Worms. Break up a cold in 24 hours. Over 10,000 testimonials of cures. Read what a few mothers say about Mother Gray's Sweet Powders for Children:

"I can say with many other mothers that MOTHER GRAY'S SWEET POWDERS for CHILDREN are worth their weight in gold. I have used them for my little girl. I give her six powders, and I never saw such a change in a child. She is so much better that she started for school this morning for the first time in nearly a year. I will not hesitate to recommend them to any mother."

"For the enclosed 50 cts. please send me two packages of MOTHER GRAY'S SWEET POWDERS FOR CHILDREN. All the prescriptions from doctors never did my child the good your powders have done. Two mothers here know of the cure of my child and request me to get more for them."—C. Ottenburger, Port Huron, Mich.

Do Not Accept Any Substitute for MOTHER GRAY'S SWEET POWDERS. Sold by Druggists everywhere for 25 cents. Sample sent FREE. Address ALLEN S. OLINSTEAD, LE ROY, N. Y.

WHEN YOU START OUT IN THE MORNING, SHAKE INTO YOUR SHOES ALLEN'S FOOT-EASE AN ANTISEPTIC POWDER for Swollen, Smarting, Nervous, Aching, Tired feet, and notice how much more comfortable you feel, and how much more you can accomplish. It instantly takes the sting out of Corns and Bunions and makes tight or new shoes feel easy. It is the greatest comfort discovery of the age. Sold by all Druggists and Shoe Stores, 25c. Do not accept any substitute. Sample sent FREE. Address, ALLEN S. OLINSTEAD, LE ROY, N. Y.

well known and indorsed by thousands of Ohioans :

## PENN RHEUMATISM CURE Drives Out Uric Acid

Guaranteed Under the Pure Drug Act as filed in the Secretary of Agriculture's Office at Washington, under serial No. 430.

When You Need Medicine Take the Best This old Quaker Remedy, striking as it does directly at the cause of many disorders of the human system by dissolving the uric acid in the blood, goes right to the seat of the disease, removes all germs and poisons out of the blood and produces distinct beneficial results in cases of Bright's Disease, Gravel, Rheumatism, Dropsy, Swelling, Diabetes, Neuritis, Debility, Sciatica, Muscular Rheumatism, Lumbago, Gout.

PENN RHEUMATISM CURE has been in active use by the most eminent physicians for more than sixty years in the special treatment of Rheumatic Cases, which, with the addition of Blood Tonics, comprises the present formula of this remedy. Over one million sample boxes of this standard RHEUMATISM CURE have been distributed throughout the United States of America absolutely free of charge. Thousands of letters have been received thanking the PENN DRUG COMPANY OF PHILADELPHIA, Pa., for their generous method and praising the healing properties of PENN RHEUMATISM CURE. If you are suffering from Dyspepsia, PENN DYSPEPSIA CURE will dispel all forms of indigestion. If you have a cough or cold, rely on PENN CHERRY DILXIR. If your kidneys are out of order use PENN KIDNEY CURE. If you are suffering from Catarrh, CHEER UP! You will find the true cure in PENN CATARRH REMEDY.

Write for a free, generous sample of PENN RHEUMATISM CURE, if you have not already done so, and satisfy yourself of its wonderful efficacy. Penn Rheumatism Cure Sold by all Druggists. PRICE IN LIQUID FORM—LARGE BOTTLE, \$1.00. SOLE MANUFACTURERS.

## PENN DRUG CO., Philadelphia

Full line of Penn Remedies on sale at Bristol M. East, Frank Hall, Hudson Avenue Pharmacy.

## Female Weakness

"Last Fall," writes Mrs. S. G. Bailey, of Tun-nelton, W. Va., "I was going down by inches, from female disease, with great pain. After taking Cardui, Oh! My! How I was benefited! I am not well yet, but am so much better that I will keep on taking Wine of Cardui till I am perfectly cured."

Despite the envious attacks of jealous enemies and rivals, Cardui still holds supreme position today [as in the past 70 years] for the relief and cure of female diseases. It stops pain, tones up the organs, regulates the functions, and aids in the replacement of a misplaced organ.

At Every Drug Store in \$1.00 Bottles.

WINE OF CARDUI

If You Want to Buy or Sell Anything Try

ADVOCATE WANT ADS.

3 LINES 3 TIMES 25 CENTS.

## OHIO TAXATION

Present System Comes In For Many Hard Knocks.

## NEEDED REFORMS ARE SURE

The Ohio Tax Commission Will Make a Thorough Investigation of the Subject—Able Address of Attorney General Ellis.

The members of the State Tax Commission, recently appointed by Governor Harris, have a most important work before them. They are wading up to the arduous duties that confront them.

This commission was proposed by the business organizations of the state. At the last convention of the Republican party a plank was included in the state platform asking for the appointment of a board to investigate the important question of taxation. Acting upon that request, Governor Harris appointed a commission, as follows: Wade H. Ellis, Attorney General, chairman; Atlee Pomerene, attorney, Canton, secretary; George E. Martin, attorney, Lancaster; Thomas H. Hogsett, attorney, Cleveland, and Alfred C. Cassatt, attorney, Cincinnati.

In tendering the appointments to the gentlemen named, Governor Harris wrote to each of them this letter:

"In obedience to the general public sentiment throughout the State, which has been expressed in the action of various business and professional associations, I have determined to appoint an honorary commission of five well-known citizens to examine the taxation laws of Ohio and recommend

taxation. In the course of his remarks Mr. Ellis said: I do not know that I could discuss with you anything more interesting, anything more important, anything more immediate at any rate, than the work of the Ohio Tax Commission.

We have been holding some public meetings and have been hearing from people interested in taxation from all parts of the state. We have found the profoundest public interest in the question; we have found everybody throughout the state who has come in contact with the commission in any way to be deeply impressed with the necessity for a serious understanding of existing evils—if such there be—in the tax laws of Ohio, and for practical reforms.

The inequalities, of course, are generally admitted. The injustice, the vagaries of the system—or lack of system—under which we have suffered for a good many years by reason of the hit or miss plan upon which the tax laws of the state have been built up—these are admitted by everybody. The remedies proposed are some of the most unique, some of them novel, most of them entertaining; but it is a curious fact that in very few instances do those who propose any reform in the tax laws of Ohio take into consideration the legal obstacles or the constitutional barriers in the way of putting into immediate effect the proposed changes in the tax laws.

It is generally admitted that personal property, whether it ought or ought not, at least does not bear its fair share of the burden of taxation. It is a notorious fact, as we all know, that during the last 50 years personal property has become more and more elusive, less and less open to the tax gatherer, and real property has been increasing in value at a far greater rate throughout the state than personal property. Fifty years ago, for example, personal property had a value of about three-fifths that of real estate; today it is about two-fifths.

Now, the proposition is frankly made in some quarters that you can not tax personal property and that, therefore, the sensible thing to do is to stop trying, and the proposition was made the other day before our commission, that we ought to abolish all taxes upon personal property; it was seriously made by a thoughtful student of the taxation question. Of course he entirely overlooked the fact that that would require a constitutional amendment.

Of course the Tax Commission have had a great many suggestions to tax franchises. The proposition was embodied in a bill presented in the last General Assembly, known as the Howe bill,

## THE CROAKER

(Original.)

Hans and Katrina Shaeffer were a young couple who had come to America from Germany and settled on a farm in the west. They were having a hard time of it, for they had no money with which to stock their farm, when a son was born to them. The father did not welcome the little stranger, giving as an excuse that he saw nothing ahead for the boy but a life of poverty, and poverty meant slavery. Not so Katrina. A mother is too absorbed in her child to worry about its future. She contented herself with the care of little Peter, as he was named, trusting to his own strength when he became a man to bring him comfort.

The father never got over croaking, as the mother called it, about Peter's future, and when the boy was old enough to play with little Gretchen Becker, the daughter of George Becker, who occupied the adjoining farm, Hans said: "See, there is more misery coming. By and by they will marry and bring more children into the world to suffer." This constant foreboding hung like a dark cloud over Katrina's life. It tended to draw her nearer to her son and estrange her from her husband. The mother gets the greater part of a child's affections, and little Peter showed his preference for his mother from the first. This was natural. How could he love a man who was continually telling him and his mother that he would grow up to beggary?

One matter especially tended to make this division in the family of the father on one side and the mother and son on the other. Hans had a secret which he told neither of them. From little Peter's birth every now and then he would go somewhere at night after they had gone to bed, always remaining away about the same length of time, an hour. Katrina did not ask her husband where he went. She knew that if he wished her to know he would tell her. When her son became old enough for her to talk with him about his father's absences, the secret drew them closer together and separated them the more from the husband and father. Peter suggested that he follow his father to see where he went and what he did, but Katrina said "No," and Peter, though very young, had the good sense to agree with her.

As Peter emerged from childhood to enter upon youth it was noticed that he and Gretchen were as devoted as ever. None but themselves knew when the change came between a childish friendship and the love of maturity, but there came a time when all who knew them saw that the bridge had been crossed. Katrina dreaded the moment when her husband would say to her: "I told you so. There are two fools sowing the wind to reap the whirlwind." But for a long while Hans had ceased his croaking and said nothing about what he saw plainly.

Hans was a hardworking man and a good husband and father. Neither his wife nor son had any complaint to make of him except the morose view he had always taken of the boy's future. As time went on he got money to buy stock and tools for his farm and before Peter came of age had farm and stock and tools paid for. But beyond this he had nothing to show for twenty years of toil.

One day Katrina nerved herself to speak to her husband about their boy's love affair. She told Hans that Peter was going to marry Gretchen.

"Yes; I know," said Hans. "When will they be married?"

"As soon as the crops are gathered." Hans turned away without a word. Katrina sighed. She would have rather had him say, "I told you so!" than nothing. People who will not either oppose us or agree with us are the most irritating. Peter had been told that if he left his father's farm he would be employed on Becker's farm, but could only expect the wages of an ordinary hand and that only when the crops were being gathered. Peter had saved enough to carry him and wife through the first winter. He wanted to ask his father if he could continue to work for him, but dreaded to speak of the matter.

However, the wedding day came round. The two families were sitting at the wedding supper when Hans rose and said:

"Katrina, now I show you where I have been going nights."

Followed by the party, he went out, taking a lantern with him, and across to the barn, where he stopped for a spade. Then he went on to a corner of his land farthest from the road and occupied by a clump of trees. In the center of this thicket he began to dig and soon unearthed an old trough with a cover on it. Taking up the trough, he carried it to the house and turned it over on the table. Out rolled a promiscuous heap of coins all the way from cents to gold double eagles and bills from one dollar to a hundred.

"Here, my boy," said Hans, "is your wedding gift, which I have been saving for more than twenty years. If I hadn't done it my way, I couldn't have done it at all. There is enough to buy you a farm, put a house on it and stock it well."

Katrina and Peter gave each other a look full of surprise, pleasure and contrition. Then Peter ran to his father impulsively and threw his arms around his neck. Katrina joined them, and the three were locked in one embrace. Then Peter went to Gretchen and said:

"We have misjudged father by what he has said. Let us begin our married life by taking people for what they are instead of what they say."

NATHAN WHITE HOWE.

CHARLES E. HUGHES.

## NEW YORK'S NEW GOVERNOR.

NEW YORK, March 6.—Governor Hughes during his two months in office has succeeded mainly by his acts in defining with much clearness his attitude toward the problems of State and local government. His attitude on questions of national scope, however, remain less distinctly outlined. He had delivered comparatively few speeches before he plunged into the campaign, and he had not ventured to undertake the discussion of the great general problems which are engaging the public attention.

## BRITISH NAVAL APPROPRIATION

LESS FOR NEXT YEAR THAN IT HAS BEEN FOR SOME TIME.

Construction of Monster Battleships Dependent Upon Decisions at Next Peace Conference.

London, March 6.—A statement of the naval estimates for 1907-8, presented to parliament, introduces quite a novel feature, inasmuch as it makes the construction of battleships during the coming year dependent in a measure upon the decisions reached at the next peace conference of The Hague. Thus the new construction, estimated at \$40,500,000, against \$46,175,000 for 1906, Lord Tweedmouth, first lord of the admiralty, says, "will include two, or unless an understanding between the naval powers is reached at The Hague conference, three large armored vessels of the Dreadnought type."

One fast unarmored cruiser, five torpedo-boat destroyers, twelve torpedo boats and twelve submarines also are provided for.

On April 1 there will be under construction five battleships, seven armored cruisers, eight torpedo-boat destroyers, seventeen torpedo boats and twelve submarines.

The estimate for the year show a total reduction of 1,000 men and \$5,675,000, compared to 1906-7.

Lord Tweedmouth comments upon the improvement in the gunnery of the fleet compared to last year. The average of hits was practically doubled, and the improvement was general throughout the fleet, and not confined to a picked selection of crack ships. The first lord of the admiralty mentions also the highly satisfactory performances of the battleship Dreadnought, and the greater of nuclear crews.

As an illustration of this system and the better state of repair resulting from it he compares the condition of January, 1904, when out of sixty battleships thirty-eight were not available owing to the need of repairs, with that of January, 1907, when out of fifty-one battleships only eight were not available.

In dealing with the redistribution of the fleets, as recently explained in these dispatches, Lord Tweedmouth touched indirectly upon the position of Admiral Lord Beresford. He explained that the "home" fleet was still in process of development and that some time would elapse before it could reach its full strength. He said the fleets at home

will continue to be combined, for war purposes, under the orders of the commander of the channel fleet; in other words, Lord Beresford, while the channel, Atlantic and "home" fleets will carry out their periodic maneuvers together under his command.

This presumably meets Lord Beresford's objection that practically all vessels of the destroyer class has been taken from the channel squadron for the "home" fleet, as Lord Beresford is now in virtual command of both fleets.

Continuing, Lord Tweedmouth said in his statement that the channel and Atlantic fleets still occupy the principal fighting position, and will be interfered with by the "home" fleet in no way except in the event of a totally unforeseen outbreak of war during the absence of the channel and Atlantic fleets from home waters.

In conclusion Lord Tweedmouth notes the fact that the first cruiser squadron is going to Jamestown for the opening of the exposition.

The total of the naval estimates is \$152,212,041.

## AURORA HOUSE PAINTS.

This Paint is an honest lead and oil paint constructed upon old-fashioned lines that every practical painter still insists on: pure lead ground in linseed oil with just the right proportion of pure Oxide of Zinc, which adds to its lustre and wearing qualities. Aurora Paints will cover more surface than other paints; the colors are uniform and when applied leaves a fine, glossy surface, sufficiently hard and yet elastic enough to withstand moisture and all climatic changes. Will not crack or peel off.

Sold in any size packages by Newark Paint Co., 31 West Church street, only exclusive paint store in South-eastern Ohio.

SPARTAN WHITE LEAD—Is a practical combination of pure carbonates or lead ground in pure, refined linseed oil, combined with just the right proportions of pure Oxide of Zinc and Silver Aluminum. Best for the interior; best for the property owner. Manufactured by THE MARLBOROUGH PAINT & COLOR CO., Marlborough, Ohio.

A healthy man is a king in his own right, an unhealthy man is an unhappy slave. Blackhead, Blood Bitters builds up sound health—keeps you well.

## CROTON.

C. D. Thain, the young man who had his back broken some weeks ago by a tree falling on him was brought home Monday from the Mr. Vernon hospital where he had been since the accident. He stood the trip fairly well but has no use of his lower extremities, and his friends are fearful he never will have.

Prof. Salem Parker of Buffalo, assisted by his class here, gave a very

pleasing concert at the M. E. church Saturday evening.

Miss Maude Perfect, who teaches in the Utica schools, was called home over Sunday to attend the funeral of her grandfather, Patrick Brazile.

D. L. Perry started for New Jersey, Saturday, his wife accompanying him as far as Newark.

Mrs. Elsie Willison is in West Virginia visiting her daughter, Mrs. Ayer Evans.

Miss Dora Yoakam was in Newark the first of the week.

Miss Amy Young of Newark visited at the home of H. L. Wright over Sunday.

Rev. D. J. Smith was called to Appleton Sunday to preach the funeral service of Mrs. Totten.

The lecture on Mexico at the Disciple church Friday evening by Mrs. Thomas Wallace, was well patronized and highly appreciated.

Fortune Ranges at Keller's. u

## NEW BETHEL.

All who are interested in Sabbath school work at New Bethel are requested to be present next Sunday at the morning service. Immediately after preaching we will proceed to reorganize and elect officers for the second quarter.

There seems to be an epidemic of grip in this locality.

Miss Ollie Welch spent part of last week at the home of Mr. and Mrs. Kell Post.

Rev. T. E. Kennedy was looking after the spiritual interest of the Jersey Chapel people Sunday.

Mrs. T. E. Kennedy spent Sunday with Mrs. S. A. Grandstaff.

Art Speer spent Sunday evening with S. A. Grandstaff and family.

Quite a number from Bethel attended the Hoover-Berry sale at Croton, Saturday.

Mr. M. G. Cross and son are moving their saw mill on the C. E. Speer farm.

Mrs. S. A. Grandstaff spent Monday at the home of her parents, Mr. and Mrs. Lee Tuttle.

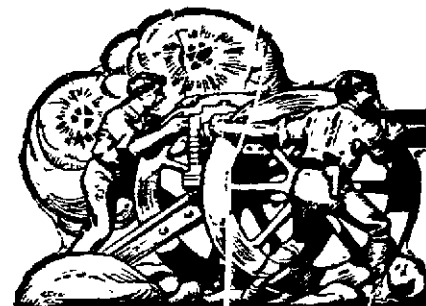

There was a rag sewing contest at the home of Mrs. Blanche Downing on last Thursday. Mrs. E. M. Linnabary received the grand prize and Miss Lulu Clouse the booby prize. All seemed to have equal ability at the needle.

It's all fun at the Crescent Rink Thursday night. Novelty Barrel Race. 5-dit

Louisiana and South Carolina are the only States in which the negroes are more numerous than the whites.

# ADVOCATE'S OLDEST SUBSCRIBER IS MR. ABRAHAM T. INGRAHAM

Who is Nearly a Hundred Years Old and for Over Half  
A Century Has Been a Reader of This Paper—  
Resides Near Croton.

An interesting life history is that of the Advocate's oldest subscriber, Abraham Tate Ingraham, aged nearly 97 years, residing with his daughter, Mrs. James Oldaker, three and one-half miles west of Croton, this county.

ABRAHAM T. INGRAHAM,  
The Advocate's Oldest Subscriber.

At every election since and including that of Andrew Jackson in 1822, and has lived in Licking county for all but 12 years of his long and successful life.

Mr. Ingraham was born in Harrison county, Virginia, near Clarksburg, on July 28, 1811. At the age of five years his parents removed to Wood county, Va., where they remained until 1816, when they changed their residence to Marietta, O. Shortly after this the family again moved, coming to a farm which Mr. Ingraham's parents had purchased, and which is situated two and one-half miles south of Fredonia, this county.

Working hard, as country boys must in those days, Mr. Ingraham was reared in a practical school of self education along agricultural lines, and soon became a most successful farmer. After some time spent on the farm, he decided to try business for himself and was for a time employed in Granville. He soon became interested in the milling business and purchased a mill of his own in Morrow county. After a short time there he engaged in the dry goods business in Findlay, O. But old Licking's call to him was too strong to be resisted, and he retired.

## WOMEN CAB DRIVERS IN PARIS BEGIN THEIR QUEST FOR FARES.

From L'Illustration Italienne

PARIS, March 6.—Mlle. Dufant and Mlle. Charnier, pioneers of their sex in the cab driving business began their quest for fares Wednesday. They sallied forth from headquarters upon their new career after having run the gauntlet of numerous interviewers and still more numerous camera fiends.

from real active work and came to the country again.

In November, 1834, Mr. Ingraham was married to Miss Eleanor Horn, a prominent young woman of Union Station. To them were born four sons and one daughter. The hand of grim Death touched the family and took the mother and wife from its midst. Some years later Mr. Ingraham was married to Miss Margaret Harris of near St. Louisville. Of the two marriages and family of ten children, but four remain. They are N. B. Ingraham of Nampo, Idaho; Frank, employed now at the Jewett Car works, this city; Mrs. Clara Philbrook, residing three miles west of Johnstown, and Mrs. Jennie Oldaker, of near Croton.

Although so far past the allotted years of mankind and so near the century mark, Mr. Ingraham has been in possession of remarkable strength and vitality until the past few months, when he had been troubled considerably with heart disorder. In spite of this his mind is clear, sound and brilliant, and he displays his former interest in the affairs of Licking county, where he is known in almost every home. His big, wholesome character, his business like view of things both near and far, tells a story of an almost wonderful life history, and reads like a book of pure, white pages.

## MORGAN CENTER.

Daniel Arrington after suffering for several months, passed away on Friday evening at 5:20 at the age of 58 years, 11 months and 8 days. His wife, five daughters, four sons, one sister and three brothers survive him. The funeral was held Saturday at Owl Creek.

Sidney Debolt, who was born and raised in Morgan township, died at his home in Mt. Vernon Friday evening after an illness of one year of catarrh of the stomach, at the age of 37 years. He leaves a mother to mourn his death. The funeral was held Monday, interment being at Owl Creek.

Mr. Orville Ross of Martinsburg, and Miss Blanche Marriott of Morgan Center, were united in marriage on Wednesday afternoon by Rev. A. B. Williams at Mt. Vernon. They will reside in Martinsburg.

Protracted meeting closed Friday night with four additions to the church.

Mrs. Oliver McMillen spent Friday with her parents Mr. and Mrs. D. P. Clutter.

Miss Ethel Baird of Martinsburg is visiting at the home of Miss Caroline Honey.

## FOR REFORM AT PRIMARY ELECTIONS

Attorney Edward Kibler of Newark, Among Prominent Men Who Indorse Movement.

Men of all parties and men prominent in and out of political life have joined the organized movement for primary election reform which has been started by the Ohio Primary Election Reform league. The movement had the indorsement of Gov. Harris, who said yesterday:

"I certainly favor the enactment of a good primary election law. I believe in the primary principle, but I am not committed to any particular bill or method. They are matters of detail. But, of course, the proposed law should make provision for a fair, square primary."

The organization of the state executive committee of the league, which will consist of at least two men in each congressional district in the state and will be of opposite political parties, is now nearly complete. In some of the larger districts there will be more than two upon the committee and the total membership will reach at least 50.

Beyond these men many from all parts of the state have written to the league, offering their aid and asking in what capacity they can assist. The newspapers of the state almost without exception have declared themselves in favor of the passage of a primary law at the next session of the legislature and have assisted in the work by the writing of vigorous editorials.

## LOCK.

Lena Riley returned to her home last week after a pleasant visit with her grandparents, Mr. and Mrs. H. B. Watson.

Mrs. Debbie Larimore of Homer is visiting relatives here.

Dennie Douglass and wife have moved in with his parents for a short time.

Will Mitchell was at Mt. Vernon Thursday.

Frank Anderson and family visited at Mr. Conway's near Peerless, from Friday until Sunday.

Esther, wife of Timothy Ross, deceased, was buried in the cemetery here last Friday.

Mrs. Clint Dustin and Helen Brezill were at Mt. Vernon Tuesday.

Mrs. Josie Shultz and children attended the funeral of their grandfather, Mr. Brezill at Croton Sunday.

Mrs. Cunningham visited Monday with her daughter Mrs. Beanie Douglass, who is under the care of a physician, having an abscess on her neck.

## UNION CENTER.

Mr. Clagget of Newark spent Tuesday and Wednesday evening with friends at this place.

Mr. Tom Williams of Outville was on these streets one day last week.

John Lamb of Newark called on his friends of this place one day last week.

Mr. Roy Fickler made a business trip to Fredonia one day last week.

Mr. Robert Evans spent Thursday of last week in the capital city.

"Trapper" Jones and "Furbayer" Fickler spent last Wednesday evening at the Hayes school house.

Several farmers of this place took

heed and sowed their clover seed during the calm days of last week.

Mrs. C. M. Bowley spent Tuesday afternoon with Mrs. D. B. Fickler.

Anybody that wants gas just come some night to the gas well on the Woodard brothers' farm. The well hasn't come in yet, and will not for week or more, but nevertheless there is gas there and plenty of it, but it will not burn.

Mrs. D. B. Fickler spent Monday in Alexandria on business.

Mr. George Drum spent Monday in Granville.

Mr. Patterson of Newark spent last Sunday with D. B. Fickler and family.

Mrs. C. M. Bowley spent one day of last week with friends in Alexandria.

Mrs. T. H. Parry is very ill with the grip.

The wind storm last Friday night blew the gas mill derrick down. About 30 persons were in the shanty at the time, but no one was hurt. The derrick was replaced by Saturday noon.

## Weak Women

NEED VINOL  
its cod liver tonic elements  
create vitality and strength

There are hundreds of women in Newark weak, thin, run-down, tired out and nervous, just in a condition to fall a prey to any disease.

Our local druggist, Frank D. Hall, says such women need Vinol, our vitality making and strength creating tonic.

Vinol is not a patent medicine, but the medicinal elements of good old fashioned cod liver oil in a highly concentrated form—taken from fresh cods' livers—the useless oil eliminated and tonic iron added.

This is why it creates an appetite, tones up the digestive organs, makes rich red blood and replaces weakness with strength.

We ask every weak, thin, run-down nervous and aged person in Newark to try Vinol on our guarantee to return money if it does not benefit them. Frank D. Hall, Druggist.

Note—While we are sole agents for Vinol in Newark, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

Buy your Ledgers, Journals, Records and Blank Books of any style at the Advocate Book Bindery.

A visiting architect from Paris who sees New York City about once in a decade, is authority for the statement that the city has improved architecturally more in the last ten years than in the preceding forty years.

Marmalade, then made only of quinces, was known in Henry VIII's reign. The word is derived from "marmelo," a quince.

## AT THE SALVATION "SUICIDE BUREAU."

SUICIDE BUREAU OF SALVATION ARMY.

NEW YORK, March 6.—With every indication that there will be no lack of patronage, the "Anti-Suicide" Bureau of the Salvation Army is open at No. 122 West Fourteenth street, for the purpose of giving advice and consolation to despairing persons contemplating the eventual step of self murder. The inauguration of this unique branch was attended with no ostentation or ceremony, but those conducting it are confident that before another 24 hours have passed they will at least have changed the tide of a few lives from a course leading to the grave of a suicide.

## VOGELMEIER BROS. BIG BRICK PLANT

Has Orders That Will Keep a Large Force Busy During the Entire Coming Season.

The Vogelmeier Brothers, Newark's well known brick manufacturers, have the assurance of working their large plant to its fullest capacity this year, as their orders already amount to 2,000,000 bricks including a very large order from Newark Machine Bottle company. In fact, the Vogelmeier Brothers furnish all the building brick for the new factory except the facing and ornamental brick.

## MANY ARTICLES MADE BY PROF. AUSTIN'S MANUAL STUDENTS

Columbus, O., March 6.—Results of the most practical kind are seen in the exhibit of manual training work made at the public school library building by pupils working under K. O. Austin at Central high school, a former Newark teacher. Most of the articles in the collection are designed for use in the study of physics.

Several pieces of mission furniture are included in the collection. Each was made from wood thrown into the cellar, discarded as worthless, and intended to be cut up as kindling. The only expense was for leather and other materials used for trimmings.

One of the most interesting articles is a board capable of demonstrating nearly all the problems in solid geometry. At regular intervals, about every inch, holes are drilled into the board. Sticks of varying heights are provided to be set up in the holes. With the aid of strings running along the tops of the sticks, or from the top to the base, the outline of different figures can be made in endless variety.

## CONVENTIONS BOOKED.

Columbus, O., March 6.—Many big conventions are billed for Columbus this spring and summer. So far, May seems to hold the record. It will have three, the National Leather Finding association, the National Air Brake association, May 14-17, and the one-hundred and nineteenth conference of the Presbyterian church. June will bring the Christian Endeavor association of Ohio, and August the big convention of the National Harness Manufacturers' and Retail Protective association. Other big meetings are looked for and the board of trade and hotel men are losing no time to increase the number.

## 10 HOUR COLD CURE

Has no superior and will positively CURE your cold, cough, sore throat, tonsillitis, laryngitis, hoarseness, bronchitis and la grippe. Money back if not satisfied. At all grocers, 25 and 50 cents.

Thirty-seven years' service as chime-ringer at the Church of the Ascension, in Hamilton, Ont., by Benjamin Fowler, was terminated by death.

Accidents will happen, but the best-regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts.

## Positive

A soda cracker should be the most nutritious and wholesome of all foods made from wheat—

## Comparative
